DIVISION 22 STANDARDS

No Action

BACKGROUND OR SUMMARY

Every year, every school district in Oregon has a statutory requirement to submit a report to our community outlining our compliance with the Division 22 Standards. The document we are providing outlines our compliance with those standards.

The Oregon Department of Education (ODE) requires each district to use the form we have submitted and further requires that we post this information on our website, which we have done.

A more detailed explanation of the Division 22 reporting process is at the beginning of the submitted report.
