Item Title: Amelia Earhart Literacy Competition Action
 Information
 Discussion

BACKGROUND:

Texans may be surprised to learn that Amelia Earhart earned some of her flying experience going in and out of airfields in the Lone Star State. Earhart's time in Texas included time at the Brownsville airport. The airport served as the international gateway to Latin America at the time. Amelia was here! Given this and in honor of Women's History Month that took place in March, students from PreK-12th grades were challenged to write an essay or create a diorama about her and her legacy. All campuses were invited to participate in this exciting competition.
