

Tom Albright - Civic Engagement Coordinator Education Committee Update 2/10/15

“Always design a thing by considering it in its next larger context – a chair in a room, a room in a house, a house in an environment, an environment in a city plan.”
-Elial Saarinen

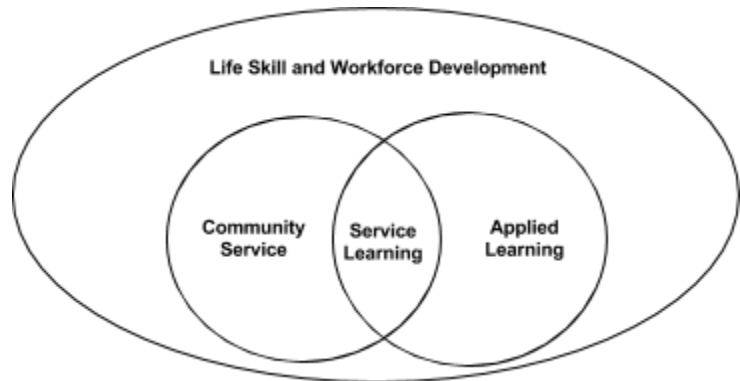

What is Civic Engagement?

Civic engagement within education is the recognition that student learning isn't insulated or confined within the school building. Civic Engagement is the recognition that a child's development is impacted by factors beyond just the school - including the family and the community - and therefore all stakeholders should work in concert with one another to address the needs of the children in the district. The District prioritized civic engagement within our Continuous Improvement Plan with the goal to “Increase Family and Community Involvement, Engagement and Satisfaction, and Deepen our Community Partnerships.”

Civic Engagement for students can take the form of:

- Community Service
- Applied Learning
- Service Learning
- Workforce and Life Skill Development

Current Focus Programs and Projects:

- Projects
 - Construct Tomorrow
 - ACTion Day
- Programs
 - Americorp management
 - Improving process for identification of needs and opportunities for volunteering within district
