Technology Report

June, 2013

This month the Technology Department has worked on the following projects:

- Assisted teachers in finalizing school year, setting up graduation, running sound for graduation, etc.
- Assisted in Summer school setup, getting programs up and running and student setups, teacher access, etc.
- Replaced Ncomputing equipment in 3rd grade lab at OES.
- Worked with non returning teachers to gather and check in technology equipment.
- Worked with known new employees to set up accounts, email, etc.
- Replaced our Lightpeed Systems internet filtering hardware and configured it for our environment.
- Worked on Web Page posting employment opportunities, required information, and updating employee information.
- Worked setting up the new superintendent with a network account and email.
- Worked with campuses with surveillance camera issues.
- Worked with librarians setting up mobile device for running inventory.
- Worked with Testing Coordinator setting up new office in Special Populations building.
- Worked with business manager and accounts payable clerk on submitting PEIMS report.
- Replaced Projector bub in OMS History Room.
- Worked with Coach Perez in printing issues and getting printer set up in AD Office.
- Worked on OES Card Swipe security system.
- We are continue working to get computer labs reset, student computers imaged, and other summer activities so school will be ready to start in the fall.
