

September 5, 2017

Greetings from the Babb Elementary Staff and Students,

We held our open house the first day of school, August 28, 2017. We served our parents rolls, fruit, and coffee which all staff members donated. We are now busy in our school testing and learning the expectations for the 2017-2018 school year. Our enrollment numbers are up this year with a total number of 33 students. Ms. Fenner's Class K-2 has a total number of 16 students and Mrs. Wilcox's Class 3-6 has a total number of 17. We have not yet tested our students on ISIP or Star, as we will be testing the week of September 5-8, 2017. The Good Medicine Staff has been in contact with the staff through email and they are currently working on a schedule for their monthly visits. Our school does offer bi-weekly counseling to our students as well. We have not yet received information on who will replace Sienna Schildt-Speicher, the counselor for Babb last year. We also provide our students that have an IEP services weekly. Each month the Glacier National Park Service Rangers visit the school and teach our students lessons about the park's environment.
