Subject: Consider Approval of 2023 Bond Second-Sale RFP #3346-26 Wireless Network Access Point Upgrade (TB02)

Background Information:

- The Lewisville ISD Technology Department has identified the need to upgrade the wireless network access points as part of the 2023 Bond. This project was previously discussed during the Board of Trustees Work Session on March 2, 2026.
- The existing wireless network access points are outdated and need to be replaced to ensure reliable and secure connectivity.
- If approved, all wireless network access points will be replaced district wide.
- The recommended vendor will help provide the District with competitive pricing in support of achieving best value.
- Best value involves considering several factors, which may include, but are not limited to, price, quality, availability, delivery timing, support, and other relevant factors. Awarding to multiple vendors does not obligate the District to make purchases.

Administrative Consideration:

- Email notifications were sent to 945 vendors, and four proposals were received. The solicitation was also posted by the Universal Service Administrative Company (USAC) for additional vendors to view in accordance with E-Rate requirements.
- Funds for this purchase will come from E-Rate fundings and 2023 Technology Bond funds.
- Anticipated expenditures, including a 5% contingency, are \$6,330,232 but will not exceed the approved budget.
 - The estimated expenditures are before eligible E-Rate discounts. The District intends to work with the Lewisville ISD Board of Trustees-approved E-Rate consultant to seek all E-Rate funding available for this project.
 - Contingency Allowance: 5%. The contingency is designated for unforeseen conditions discovered during installation or variables that may shift slightly between this approval and the final invoice. Approval by Lewisville ISD is required before work can be initiated.
- This procurement complies with Lewisville ISD Board Policy, Section 44.031 of the Texas Education Code, and other applicable state and local procurement laws.

Recommendations:

- That the Lewisville ISD Board of Trustees approves RFP #3346-26 Wireless Network Access Point Upgrade, the recommended vendor, and estimated annual expenditures.

Timeline/Report:

- Term: Upon approval
