

ApplyTexas Counselor Suite - **Renewal**

Writing Success Stories, One Student At A Time.

What is the ApplyTexas Counselor Suite?

The ApplyTexas Counselor Suite is a tool used by high school counselors in Texas to monitor and support students as they go through the college application process using the ApplyTexas system. It provides counselors with the ability to:

Track Student Applications

Counselors can track Texas college applications, viewing submission status and identifying those needing further action.

Access Reports & Provide Student Support

Counselors can generate reports to track how many students have started, submitted, or completed their applications, helping counselors identify those who may need extra support with tasks like submitting transcripts or test scores.

Manage Communication

The tool allows counselors to communicate directly with students or provide reminders for deadlines and next steps.

By giving counselors these insights, the ApplyTexas Counselor Suite helps streamline the application process and ensure students meet their college application deadlines.
