

This policy has been revised to reflect current procedure as recommended by our insurance and legal advisors.

The board of Trustees recognizes the need to develop a volunteer program to support district instructional programs and extracurricular activities. The purpose of the volunteer program will be to:

- Assist employees in providing more individualization and enrichment of instruction.
- Build and understanding of school programs among patrons and parents, thus stimulating widespread involvement in the total educational process.
- Strengthen school/community relations.

This service must be under the direct control of the district administrative staff and the superintendent of schools. **Volunteers should not bring their own children into the classroom or to extracurricular activities.**
