

Early Bird Learning Center

School Board Communications
May 2018

Week of May 7th – This week we learned about all the different animals that live in the ocean. The students played ocean bingo. We also had an inside beach day and brought our beach towels and a book to read. Also, our teachers enjoyed being spoiled during Teacher Appreciation Week. Each day the kids had a surprise/treat for their teacher. The district filled us up with pizza on Wednesday. The students also made a craft for their mom. Happy Mother's Day!!

Week of May 14th – This week we learned about shadows and moving machines/transportation. They did a fun activity outside enjoying the sunshine and looking at their shadows. Also, they talked about how cars get you to school, airplanes fly you in the air and boats take you across the water. Lots of different types of transportation.

Week of May 21st – Graduation and end of the year parties are upon us. Can't believe it is that time already!!! All of our graduates are saying good bye to Early Bird and getting ready for their new elementary campus. We look forward to seeing all of our returning students next year.

Week of May 28nd – We wended down our last week of school with fun in the sun water day. Lots of water activities and bubbles. What a great way to end the school year!! Hope everyone has a fun and safe summer.
