First Reading of Board Policies

Proposed changes to the policies below were reviewed by the Board and will be on the agenda of the next Regular Board meeting for a second reading and potential approval.

BOARD POLICY	IDDA
INSTRUCTIONAL PROGRAM	MARCH 16, 2015
SPECIAL EDUCATION PROGRAMS	

The Board of Education provides special programs and services to meet the needs of its students with special needs. These programs and services will be coordinated by the Department of Student Services, which interprets and operates these services according

~~to law.~~

The School District will provide eligible students with Individualized Education Plans (IEP) programming and services to meet their needs. These programs and services will be coordinated by the Department of Student Services and its staff. The District will abide by all applicable laws, including State and Federal laws such as Michigan Administrative Rules for Special Education (MARSE) and Individuals with Disability Education Act (IDEA).

BOARD POLICY **IDDD**
INSTRUCTIONAL PROGRAM **JUNE 20, 1988**
PROGRAMS FOR THE ~~GIFTED~~ **ACADEMICALLY TALENTED**

~~The Board of Education shall encourage the staff to seek out those organizational arrangements, teaching methods and other instructional provisions for providing the appropriate learning and development of all academically talented and otherwise gifted students. To this end, pilot programs may be established, and studies and research conducted to ascertain appropriate curricular and instructional means for accomplishing the above objective.~~

The School District will provide academically talented students access to learning opportunities both in general education classrooms and in magnet programs, to meet their needs. These programs and services will be coordinated by the directors of elementary and secondary education with the support of the Academic Services Department.

Staff may conduct studies and research to ascertain appropriate curricular and instructional opportunities and programming for academically talented students.

BOARD POLICY **II**
INSTRUCTIONAL PROGRAM **DATE**
SYSTEMWIDE ~~ASSESSMENT~~ **STANDARDIZED TESTING PROGRAM**

The purpose of the systemwide assessment program is to plan appropriate instructional activities for each student in addition to providing the School District and each school essential information on the growth and achievement of our learners.

The School District will select and administer a series of aptitude, diagnostic and standardized achievement assessments, which provide information related to a student's learning potential as well as longitudinal achievement data on individual learners and cohorts of students in the District. Other appropriate assessments may be used for diagnostic purposes.

The School District shall assess learning based on the current standards and curriculum being used in classrooms across the District. This includes, but is not limited to, school improvement assessments, common course and grade level assessments, and unit tests. These assessments, along with standardized assessments, provide a broader picture of a student's abilities and attainment of standards. In addition, surveys and student focus groups provide a "picture" of students' thoughts, feelings and attitudes.

TESTING PROGRAMS~~

~~The Board of Education expects the staff to select and administer a series of mental capacity tests and standardized achievement tests, particularly in the areas of the so-called basic skills and study skills, as one source of data indicating the nature of the students' potential and of their longitudinal achievement as they progress through the schools. Other appropriate tests may be used on an optional basis for diagnostic~~

~~purposes.~~

~~Although it is the general attitude of this Board that reasonable limits should be placed on the administering of tests to students, it is permissible to administer selected so-called external tests to those students desiring to take the same for college entrance, scholarships, academic competition, and college placement.~~

~~The Board of Education encourages the staff to examine continually the values which reflect the objectives of the School System, the needs of students, and the circumstances in society which indicate the necessity for new or different educational experiences. As a result of such study and reexamination, the staff is further encouraged to seek better means for assessing learning in such areas as the cognitive abilities including inductive thinking, the process of inquiry, critical thinking, and the process of problem-solving. Also, it is expected that assessment means should be found or devised through which data may be gathered regarding learning in the so-called "affective domain," including such factors as feelings, attitudes, and appreciations.~~
