*We are moving to a teaming concept next year for 4th and 5th grade. Teams of 2 teachers will switch classes daily allowing one teacher to teach 2 sections of math and one teacher to teach 2 sections of ELA. Adding 15 minutes will balance the schedule for the 2 teachers teaming. It will also allow for more instructional time for math, which is our lowest scoring area on state testing.

*We are also adding 15 minutes to our WIN (Whatever I Need) intervention time. This will allow us to give students more support in ELA and Math and deliver interventions to students in both subjects daily (previously we rotated ELA and Math every other day).
