Re: Requesting Pedestrian/Student Crosswalk with Street Control Device(s)

Hello Dr. Garcia

I am requesting your assistance on implementing a crosswalk near the front entrance to South San Antonio High School to allow Pedestrian/Student to cross Barlite Blvd. so that students can safely cross over the street. My recommendation is that a designate crosswalk with striping and traffic control device(s) be installed to control traffic flow.

I have received complaints from parents that it is very unsafe for students to cross the street during school release which occurs at 4:10 PM; Monday through Friday. I have attached maps to explain the issue and a recommendation. Usually, I have an officer assist with the traffic flow at school release; however, occasionally due to bad weather and/or police service case load officer presence may not be able to assist.

If you need any other information, please do not hesitate to contact me

Thank you in advance,
