**BOARD OF EDUCATION**  
**Bloomington, Illinois**  
Regular Meeting    December 20, 2021

**FOR INFORMATION:**

**Subject:    Superintendent's Report**

Board Annual Calendar

The updated Board calendar was sent out to each of you as an attachment to the December 9 edition of the Thursday Letter. No one has indicated any changes or has reached out with any questions at this time, but should the calendar need to be amended, I will share that information and the rationale at that time.

Joint Committee on RIF Update

On Monday, November 15, I met with the Union leadership to discuss Reductions in Force (RIF) before the December 1 statutory deadline. It is my belief that I would only consider RIF if there was no place to assign the extra teachers that were hired as a result of instituting 3-foot social distancing guidelines in classrooms. That guideline limited the number of students that can be served and required more sections of students throughout the District. I will have greater details when I present the staffing plan for 2022-2023 at the February regular meeting.

Return to Learn

During the meeting, I will brief the Board on the following topics:

- An overview of the webinar with IDPH;
- Messaging to parents on vaccinated students;
- Guidance updates from other regulatory agencies.

I will also be happy to answer any questions you may have that I did not address.
