

**#4060  
Evaluation / Supervision**

---

The Board of Education endorses a continuous process of evaluation of all employees of the school district.

The Superintendent is directed to establish those procedures which will ensure that the quality of programs and services in the school system be improved and maintained.

It also is the intention of the Board of Education that all employees receive such supervision that all aspects of their job assignments are properly and competently performed in accordance with the performance objectives of the respective position.

Date of Adoption: May 7, 1973 as #4217
