ACCESS 2.0 Testing

Our annual language proficiency testing for English Learners began January 28 and will continue through the beginning of March. We will be testing approximately 200 students during this year's window. The state is proposing new exit criteria for the assessment that would enable more of our students to exit our English Learner Program.

Idaho Positive Behavior Network Conference

The PBIS teams from each building will be attending the 4th Annual IPBN Conference on February 8, 2019. The annual conference will include a keynote on trauma-sensitive social and emotional learning strategies as well as over 14 breakout sessions. We are excited to receive this professional development opportunity for so many of our staff members at no cost to the district.
