Niven, Mattingly, Pierce, Perkins, O'Bara, Rainey, Robinson, Russell,

Stewart, and Zwahr

Others: Cindy Breeding, *Denton Record Chronicle*; citizens, staff, and students.

Pledges: The pledges to the flags were led by Adkins Elementary School students.

Presentations/ Recognitions Eleven Denton ISD students have been chosen out of 1.6 million total entrants to be semi-finalists or commended scholars in the National Merit Scholarship Program for this year's graduating class.

The College Board honored 112 current Denton ISD high school students with distinctions for the 2021-2022 school year, according to their annual list of recipients who are named Advanced Placement Scholars.

Each year the Texas Association of School Boards (TASB) honors businesses and organizations for their support and exceptional advocacy of local schools. This state-wide honor, as part of "Stand Up for Texas Public Schools," recognizes local businesses and community organizations that partner with districts, making a difference in the lives of local public-school students.

Our partnership with LovePacs, a non-profit, ensures that students have meals during breaks from school and on holidays. Working with our campus counselors, they serve families through a seamless system that guarantees that the supplies are shared with our families who need assistance

The following community members addressed the Board regarding various issues: Ebonye Redwine, Anna Lam, Margaret Calabrese, Dean Boyd and Lenry Van Zyl,

Discussion of Denton Central Appraisal District Vision Don Spencer, Deputy Chief Appraiser/Interim Chief Appraiser addressed the Board of Trustees to present the future plans and vision of the 2023 DCAD budget. DCAD has requested an increase to its budget for more appraisers which gives each appraiser less parcels to appraise and decreases the chance for errors as well as less protests per appraiser. Having more Appraisal Review Board members will provide less wait time for taxpayers and a timely certification. DCAD is budgeting for 17 new residential appraisers and customer service specialists which helps increase capacity and productivity. DCAD will also leverage technology to offset personnel cost.

Discussion of Elementary School Planning with Pfluger Architects Susannah O'Bara, Asst. Superintendent, Terry Hoyle, CEO Pfluger and Casey Myra, Pfluger Architect presented the next generation of elementary school design process. Pfluger along with staff from Curriculum and Instruction, Academic Programs and Principals worked on what they felt the future of education should look and feel like. Some of the guiding principles were:

- 1. Create active, flexible, inclusive learning experiences and make learning fun.
- 2. Provide open spaces so that learning is visible everywhere but limit disruption to others.
- 3. Integrate environmental safety levels into the design.
- 4. Ensure that equitable resources are provided to all students and staff.
- 5. Aesthetics should be geared toward the specific needs /wants /wishes of the community.
- 6. Provide opportunities for students to facilitate their own learning and allow them to have their own choices.

The design concept would be having a central 'hub" to include dinning, outdoor learning and media center with classrooms on the outside edges and the specialty classes such as science, maker space, music and art would be sprinkled with the hub area. The new design would be a 2-story building to lessen the exterior entry points into the building.

Discussion of Attendance Boundary Modifications – Cheek Middle School

Dr. Jeff Russell, Area Superintendent provided the Board of Trustees with an overview of the proposed attendance boundary modifications to Rodriguez Middle School and Navo Middle School which will also establish the boundary modification for the new Cheek Middle School to open for the 2023-2024 school year. During recent attendance boundary discussions, the District explored the impact of future developments on the enrollment at Cheek Middle School. These future developments would have a significant impact to enrollment capacity at Rodriguez Middle School and Navo Middle School and making these boundary adjustments now would provide the greatest campus size efficiency for a longer period of time for all three middle schools.
