

Complete and submit this form, along with any supplemental documentation, to the Office of the President by 5:00pm on the seventh day prior to the Board meeting.

**Date of Board Meeting:** May 21, 2024

**Subject:** Computer Lab Refresh – Engineering Design and WCJC Learning Centers

**Recommendation:** Approve the refresh of equipment in three campus computer labs to adequately support the Engineering Design program and Student Learning Centers at a cost of \$64,845.19 using monies transferred from the MIS Fund.

**Background and Rationale:**

The following computer labs are slated for refresh in order to appropriately support curricular software requirements and updates:

- Peace 208 (Wharton): 21 Computers; \$1,509.39 each; \$31,697 total (Last Refresh: 2015)
- Peace 207 (Wharton): 25 Computers; \$662.96 each; \$16,574 total (Last Refresh: 2011)
- Brazos Hall 279 (Sugar Land): 25 Computers; \$662.96 each; \$16,574 total (Last Refresh: 2014)

In order to train students in an optimal environment, the Engineering Design curriculum must be updated. Due to the age of the machines in Peace 208, an upgrade to this new OS is not possible. In addition, the machines in the WCJC Learning Centers in Wharton and Sugar Land (Peace 207 and Brazos Hall 279) are end-of-life and no longer support upgrades. Existing ancillary hardware (monitors, keyboards, etc) do not need to be replaced in any of these labs at this time. This refresh will result in the purchase of a total of 71 computers to be installed prior to the start of the Fall 2024 semester.

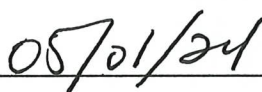

**Cost and Budgetary Support:** \$64,845.19 (Transfer from MIS Fund)

**Strategic Priority Alignment:**       Student Success                       Community Impact  
    Resource Optimization               Institutional Excellence
