

Metlakatla High School Student Government

April 2025 Board Report

We will be going to the Spring AASG Conference in Sitka, leaving on April 24th and returning on the 27th. We will be taking 10 students with us, and we are planning on writing two Resolutions to bring to the Conference.

Resolutions are student-created policy proposals that can be about any topic that students want to address; our resolutions will be about health education in public schools and environmental protection in Alaska. Both of these resolutions were voted on by Student Government at our last meeting. If these resolutions are adopted at the conference, we will present them at the next Board Meeting.
