Agenda Item IF2 – Approve Contract with Tarkett Sports Construction Northwest Inc. for Synthetic Turf Field and Track Replacement at Burghardt Sports Complex

Purpose:

The purpose of this agenda item is to recommend the Board approve the \$2,428,701 competitively bid contract with Tarkett Sports Construction Northwest Inc. for synthetic turf field and track replacement.

Background:

The district has partnered with generous donors throughout the community to raise funds for installing a synthetic turf field and replacement track at Burghardt Sports Complex.

Requests for proposals were sent to the two companies (Coast to Coast [aka AstroTurf] and Tarkett Sports Construction Northwest [AKA FieldTurf]) who install synthetic turf and tracks in the Northwest and who have competitively bid cooperative purchasing contracts available to the district.

District staff and consultants interviewed both firms, evaluated materials and specifications, checked references, compared prices, and selected Tarkett Sports Construction Northwest Inc (AKA FieldTurf). While FieldTurf was slightly less expensive, the decision to recommend FieldTurf was based on all factors (e.g. product, experience, service, warranty).

If approved, construction would be scheduled to start **TBD** with the completion planned for **TBD**.

On February 17, 2026, Pursuant to ORS 279A.215(2)(a), the district published its intent to award a contract to Tarkett Sports Construction Northwest Inc. through a permissive cooperative contract through the Oregon Inter-Mountain ESD (IMESD) AEPA Cooperative Contract #024-A Natural & Synthetic Surfaces for Sports Fields, Tracks, Courts, Playgrounds and Landscaping Applications. The published notice invited comments. At the time of the board agenda publication, no comments have been received.

Respectfully Submitted by:

Dr. Tony Mann, Superintendent
