

Memo

To: Superintendent Jeff Stephens, Weber School District Board of Education
From: Lynn Raymond, Administrative Director of Technology
CC: Robert Petersen, John Alexander
Date: 15:27
Re: Bid and Purchase requests

It is necessary to upgrade our servers and storage arrays and capacity in our District Office data center. The current servers and storage arrays have been in place for the past 5 years. These storage arrays are necessary for successful operation of the overall network at the school including DNS, Desktop Telephones, Network Services, and day-to-day server operations. Funds for this purchase are from regular operating budgets. The prices listed are below NASPO/State Contract price.

I am requesting board approval for the following:

Data Center Storage Arrays – Not to exceed \$30,000

- (4) Servers with integrated storage

Thank you for your consideration of this acquisition. District purchasing guidelines will be followed. These items are important to the safe, reliable and secure operation of our school networks. I appreciate your continued support of technology in the district. If I can provide you with further clarification or answers to questions, please contact me at 801-476-7977. Alternatively, you can reach me on my cell phone at 801-540-1014.

Thank you.

Lynn Raymond
Director of Technology
