

Dear Amy Kent,

On behalf of the Pine to Prairie and North Country Vocational Cooperative Centers, we are pleased to inform you that **Bagley** has been awarded funding under the MSC (Minnesota Service Cooperative) Career and Technical Education (CTE) Grant Program.

Following a comprehensive review of applications, your proposal was approved based on its alignment with state CTE priorities, demonstrated need, and commitment to preparing your students for postsecondary education, and workforce readiness. Accordingly, your district has been awarded **\$3,742.20** to support the heat press and vinyl cutting project for implementation during the 2026-2027 school year.

Grant funds are to be used exclusively for approved CTE-related activities as outlined in your application. Allowable uses may include, but are not limited to, instructional equipment, laboratory upgrades, curriculum development, industry-aligned instructional materials, professional development for CTE instructors, and student learning supports. All expenditures must comply with MSC Grant Program requirements and applicable state and federal regulations.

As a condition of this award, the district is required to adhere to all fiscal, programmatic, and reporting requirements associated with the MSC CTE Grant Program. Acceptance of this award constitutes agreement to comply with all program requirements.

We commend **Bagley** for its commitment to expanding high-quality Career and Technical Education opportunities and strengthening pathways that support student achievement and workforce development. We look forward to the successful implementation of your project and its positive impact on students. At this time please proceed with your purchase and once the items are received send all invoices to the North Country Vocational Cooperative Center at the email address listed below.

If you have any questions regarding this award or next steps, please contact Tom Leuthner or Elaine Hoffman.

Congratulations on your award.

Sincerely,

Tom Leuthner
