

FIS School Board Report January 27, 2025

Student Council retreat

On January 23rd our Student Council students will be participating in a retreat here at FIS. Trish Bemboom will be working with our Student Council and our advisors Kristin Herbert and Jason Swanson to help build leadership capacity. This is a great opportunity and congratulate Mr. Swanson and Ms. Herbert for providing this leadership opportunity.

STAR testing

January 1- 15th was our screening window for math and reading. As a building we will look at each student's data points and work through how to best support our students along with guiding our instruction. This is an excellent data point as we continue to prepare for MCA's this spring.

Professional Development day

January 27th is a staff development day and we will have a presentation from William Grube on Artificial Intelligence and how to best utilize this technology in the classroom. This will be a good time to learn and grow as staff members. The afternoon time is dedicated for staff to work in their classrooms.
