Re: Summer 2014 Technology Improvement Plans

As a part of our continuous improvement plan, the CISD Board of Trustees is asked to approve the following system purchases and improvements in preparation for the next school year:

- Next Generation Web Filtering System - Upgrade to granularly differentiate policies among elementary, middle, and high schools.
- Mobile Device Management (MDM) – Upgrade to improve enterprise management and control of student iPads and deploy Apps.
- Wireless Density Implementation:
 - CHS - Spectrum analysis to identify and adjust for any black spots. Monitor and adjust continuously during the school year.
 - MS North - Spectrum analysis to identify and adjust for any black spots. Monitor and adjust continuously during the school year.
- School-wide Wireless evaluation and upgrade:
 - New Tech
 - MS East
 - MS West
 - Austin
 - Denton Creek
 - Mockingbird
 - Valley Ranch
