Browning School District #9 Vision

Browning Public Schools work with “Kunnaattupii” (ALL) people —families, students, staff, trustees, and community— to provide a high quality, culturally responsive education for all our children using whole child guidance, teaching and support through collaboration and communication as we by honor the unique identity of ALL.

Browning School District #9 Mission

- ▶ Browning Public Schools is a safe environment that teaches personal and community wellness and provides support and strategies for overcoming adversity. (Safety Matters)
- ▶ In Browning Public Schools, we are free to teach and learn successfully. We instill and develop respect and pride for self, family, school, community, our environment, and all cultures through service to others. (Graduation Matters)
- ▶ We model accountability, hard work and personal accountability through humility and dedication – demonstrating that these values are the responsibility of all. (Culture Matters)
- ▶ We cultivate and nurture strong partnerships with the community to build citizens who have a sense of place, respect for Mother Earth, and an understanding of the rights and responsibilities of, and to, all people in all communities. (Attendance Matters)

The Superintendent Student Advisory meetings are continuing once a month with student councils from each building. This is very rewarding. They were instrumental in helping with the Kindness Campaign and the poster contest. They have also brought safety issues in the buildings and positive ideas about their education that has been shared with the building principals.
