January 2026

## CURRICULUM

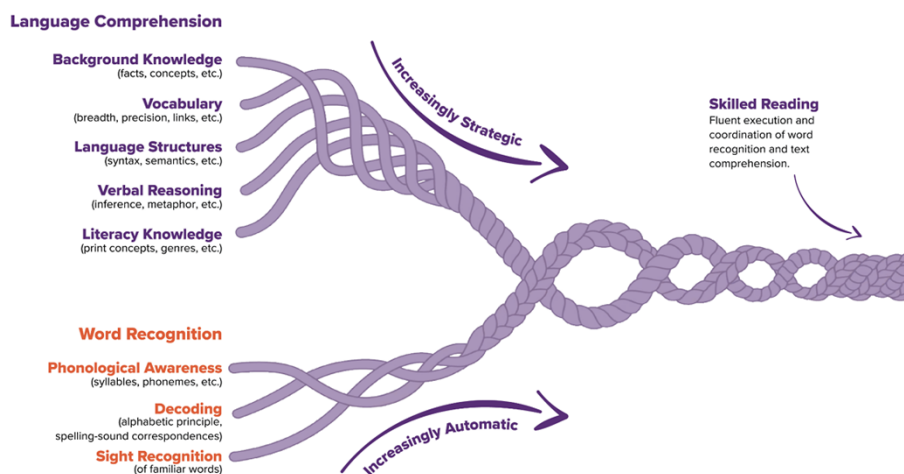

Instructional leaders at Bullshoe, Browning, and Napi Elementary Schools have continued to review the updated MT Mathematics Content Standards set to be implemented beginning the 2026 school year as part of our district's 5-Year curriculum review for mathematics. During our meetings we reviewed the new Montana Math Standards. Montana and Browning School District #9 will be adopting NEW MATH STANDARDS for grades PK-12 beginning July 2026. These standards are available at the MT OPI webpage: [MT OPI 2026 Mathematics Standards Planning Document](#)

BPS will begin reviewing new math curricula during the months of January-April for grades PK-5. With district approval and adoption beginning the 2026-2027 school year. The district will utilize funding from the School Support Grant received from MT OPI in November to support this curriculum adoption by providing teacher planning time in June, new program training in August, and implementation support during the fall of 2026.

## INSTRUCTION

Our schools (Bullshoe, BES, Napi, BMS, BHS, and BHA) are participating in the MT Reads Literacy Grant. School & district leaders have been attending monthly webinars sponsored by the MT OPI to support next steps for schools to implement instruction

aligned to the Science of Reading. Webinars have supported implementing evidence-based practices to provide high-quality instruction in speaking, listening, reading, and writing. BPS is offering LETRS training for our 3rd Cohort of teachers, LETRS Early Childhood for PreK teachers, and LETRS for Administrators for building principals this year. The literacy grant will be supporting the refining of our current MTSS systems to maximize student growth in reading and writing.

# ASSESSMENT
