Budget Committee Members

To be determined at a reorganizational meeting.

Introduction

A budget is a financial plan designed to achieve the educational objectives of the Waunakee Community School District. The budget needs to be accountable to meet these educational objectives within the financial constraints that exist. The budget needs to be understandable to the Board of Education, administration, staff, parents, and the district taxpayers. The budget was developed with significant staff input regarding needs and priorities. The budget was developed based on principals of long-term fiscal planning.

Timeline

The budget process for the 2026-2027 fiscal year began in December 2025 when the budget committee reviewed a budget timeline and revenue estimates. The budget committee reviewed expenditure estimates on January 5th. A draft of the budget planning process document was presented at a Budget Committee meeting in February. The school board approved the budget planning process document on March 10th. Building/department level budget planning took place in March. Administrative review of the budget took place in March. The first draft of the budget will be presented to the Budget Committee and the Board of Education in May. The second draft of the budget will be presented in June. The third draft of the budget will be presented in July. The preliminary budget will be presented at the Annual Meeting on August 25th with community approval of the tax levy. The Board of Education will approve the final version of the budget and set the tax levy at a special meeting scheduled for October 27th.

Executive Summary

A state revenue cap formula is a significant factor in the development of the budget. The revenue cap limits the amount of revenue available to school districts from the two main sources- property taxes and state equalization aid. The revenue cap directly affects Funds 10, 38, and 41, and indirectly affects Fund 27. Fund 27 is primarily funded from a transfer from Fund 10.

The 2026-27 Waunakee state budget process increases the revenue cap per student amount by \$325.00. The budget includes a \$0 change in the per pupil categorical aid. The most recent four years of revenue cap changes and the increase for 2026-27 is shown below (dark purple reflects the revenue limit increases from state budgets).

The 2022-23 through 2025-26 revenue caps were increased by \$3,127,502 in 2022-23, \$5,127,502 in 2023-24, and \$8,127,502 in 2024-25 due to a November 2020 and November 2022 non-recurring operational referendum question (light purple reflects the referendum approved revenue limit increases). In November 2024, the community approved an operational referendum for \$9.65 million for 2025-26 and \$11.2 million for 2026-27. The operational referendum included \$1.05 million in 2025-26 and \$2.1 million in 2026-27 in non-recurring referendum funds. The remainder was recurring.

Enrollment

Student enrollment is a key factor in the revenue cap formula. The most recent four years of historical numbers and the estimated September 2026 student count numbers are shown below:

The historical student count shows a stable enrollment. The estimated September 2026 enrollment shows an increase of 26 students. Enrollment increases result in more revenues being available through the revenue cap formula. Enrollment decreases result in a decline in revenues through the revenue cap formula, with the exception of a temporary declining enrollment exception. This budget anticipates a temporary declining enrollment exception for 2026-27.

The 2026-2027 revenue cap limit increases to \$64,745,077 or \$2,893,930 higher than 2025-26. This equates to a 4.7% increase. The \$2,893,930 is a combination of referendum approved funds (\$1,550,000), state budget funds (\$1,193,930) and Transfer of Service (\$150,000). The 2026-2027 state equalization aid estimate decreased to \$22,621,680 or \$712,706 lower than 2025-26. This change equates to a 3.1% decrease. The 2026-2027 tax levy increases to \$51,619,364 or \$4,128,361 higher than 2025-2026. This increase equates to an 8.7% increase. Two years of historical information and the proposed tax levy for this year is shown below.

The 2026-2027 tax base is estimated at \$5,852,238,646 or \$331,258,791 higher than 2025-2026. This change equates to a 6.0% increase. The 2026-2027 tax rate (tax levy/tax base) increases to \$8.78. This equates to a 2.0% increase. Please also note the school levy credit has increased for the 2025-26 tax year.
