

BOARD OF SCHOOL TRUSTEES

KELLER INDEPENDENT SCHOOL DISTRICT

3D. Action

Date: April 11, 2005

SUBJECT: APPROVAL OF ARCHITECTS AND DESIGN DEVELOPMENT FOR ADDITIONS TO SOUTH KELLER INTERMEDIATE AND INDIAN SPRINGS MIDDLE SCHOOL FOR 2005 BOND

**BOARD GOAL: Safe Schools
Budget and Finance**

FISCAL NOTE: Bond Funds

Background Information:

- Hahnfeld Hoffer Stanford Architects were the original architects on the Intermediate Schools including the planned additions.
- VLK Architects were the original architects on the Middle Schools including the planned additions.
- Work in the 2005 bond program includes the additions to Indian Springs Middle School (a VLK project) and South Keller Intermediate (a HHS project). In anticipation of this work the District should retain each firm with contracts for services.
- The Architects will be presenting an overview plan and a proposed schedule for the Board's review and approval.

Administrative Considerations:

- The design of each project is a planned prototype addition that was constructed in the 2000 bond program at Hillwood Middle School and Parkwood Hill Intermediate School.

+++++

The administration recommends that the Board of Trustees contract with VLK Architects and Hahnfeld Hoffer Stanford Architects for the school additions as listed above and approve the design development plans for these additions as presented.

Respectfully submitted,

Mark A. Canterbury, AIA
District Architect
