

Southeast Island School District
American Rescue Plan (ARP) Act
Mitigation and Prevention Plan

BACK TO SCHOOL PLAN 2021-22

Option A

Revised August 21, 2021

Mitigation Plan

Plan Components

Districts must implement, to the greatest extent practicable, prevention and mitigation policies in line with the most up-to-date guidance from the Centers for Disease Control and Prevention (CDC) for the reopening and operation of school facilities to effectively maintain the health and safety of students, educators, and other staff. Describe the extent to which the district adopted policies and a description of such policies on each of the strategies listed below:

1. [Masks and Physical Distancing \(e.g., including use of cohorts/pods\)](#)

SISD will follow a layered approach to mitigation, with mask policies dependent on local conditions.

Per CDC [Guidance for COVID-19 Prevention in K-12 Schools](https://www.cdc.gov/coronavirus/2019-ncov/community/schools-childcare/k-12-guidance.html) (<https://www.cdc.gov/coronavirus/2019-ncov/community/schools-childcare/k-12-guidance.html>), Updated Aug. 5, 2021

- Due to the circulating and highly contagious Delta variant, CDC recommends universal indoor masking by all students (age 2 and older), staff, teachers, and visitors to K-12 schools, regardless of vaccination status.
- In addition to universal indoor masking, CDC recommends schools maintain at least 3 feet of physical distance between students within classrooms to reduce transmission risk. When it is not possible to maintain a physical distance of at least 3 feet, such as when schools cannot fully re-open while maintaining these distances, it is especially important to layer multiple other prevention strategies, such as screening testing. (see #2 *Physical Distancing for information about 3 feet and 6 feet distances*)

If the alert level on Prince of Wales Island is “high” (red) or “substantial” (orange), all students, teachers, staff, and visitors will practice universal indoor masking.

If the alert level on Prince of Wales Island is “moderate” (yellow) or “low” (blue), Personal Protective Equipment (PPE) masks are required by staff and students when working directly with each other and physical distancing cannot be maintained. Masks will be required in all SISD schools during passing periods and when students are accessing lockers. Masks will be required in the SISD school hallways when students arrive at school in the morning and are exiting the building after school.

The alert level will be determined by Craig Public Health. It will reflect cases over the previous 7 days on Prince of Wales Island and will use the same methodology as Alaska DHSS uses to designate alert levels for each region in the state.

For all alert levels, visitors and volunteers will be permitted upon approval, on a case-by-case basis, when the use of volunteers is essential for the safety and supervision of students (i.e. outdoor field trips). All visitors and volunteers will be temperature screened and are required to wear masks when working directly with staff and students and 6 feet social distancing cannot be maintained.

American Rescue Plan Act Mitigation and Prevention Plan

Field trip/activity locations are allowed if the activity is outside and students with staff can either walk to the location with appropriate social distancing, or if using district vehicles students will be required to wear masks when appropriate social distancing cannot be adhered to.

2. Increased Level of Community Transition, Masks Required and Use of Pods to Continue In-Person Instruction

SISD will follow a layered approach to mitigation, with mask policies dependent on local conditions.

Per CDC Guidance for COVID-19 Prevention in K-12 Schools (<https://www.cdc.gov/coronavirus/2019-ncov/community/schools-childcare/k-12-guidance.html>), Updated Aug. 5, 2021

- Due to the circulating and highly contagious Delta variant, CDC recommends universal indoor masking by all students (age 2 and older), staff, teachers, and visitors to K-12 schools, regardless of vaccination status.
- In addition to universal indoor masking, CDC recommends schools maintain at least 3 feet of physical distance between students within classrooms to reduce transmission risk. When it is not possible to maintain a physical distance of at least 3 feet, such as when schools cannot fully re-open while maintaining these distances, it is especially important to layer multiple other prevention strategies, such as screening testing.

If the alert level on Prince of Wales Island is “high” (red) or “substantial” (orange), all students, teachers, staff, and visitors will practice universal indoor masking.

If the alert level on Prince of Wales Island is “moderate” (yellow) or “low” (blue), Personal Protective Equipment (PPE) masks are required by staff and students when working directly with each other and physical distancing cannot be maintained. Masks will be required in all SISD schools during passing periods and when students are accessing lockers. Masks will be required in the SISD school hallways when students arrive at school in the morning and are exiting the building after school.

The alert level will be determined by Craig Public Health. It will reflect cases over the previous 7 days on Prince of Wales Island, and will use the same methodology as Alaska DHSS uses to designate alert levels for each region in the state.

For all alert levels, visitors and volunteers will be permitted upon approval, on a case-by-case basis, when the use of volunteers is essential for the safety and supervision of students (i.e. outdoor field trips). All visitors and volunteers will be temperature screened and are required to wear masks when working directly with staff and students and 6 feet social distancing cannot be maintained.

Field trip/activity locations are allowed if the activity is outside and students with staff can either walk to the location with appropriate social distancing, or if using district vehicles students will be required to wear masks when appropriate social distancing cannot be adhered to.

If the district’s Medical Advisory Committee recommends that one of more of SISD’s school move to a more restricted level of safety due to an increased level of community transition and/or other factors affecting

American Rescue Plan Act Mitigation and Prevention Plan

one of our school communities, SISD will put in place more restrictive safety measures. In an effort to keep students in school in-person, Personal Protective Equipment (PPE) masks will be required by staff and students when working directly with each other. In this scenario, individual schools in the district may also develop pods within their student population and students/staff will not be able to interact with students/staff in other pods. Flexibility and evidence-based decision making will guide SISD's decisions to shift between Yellow/Moderate (in-person instruction) and Red/High Risk (distance instruction) scenarios.

SISD will closely monitor SE regional trends with COVID-19 infections to include Juneau, Sitka, Ketchikan, Anchorage and Seattle. If regional trends shift rapidly, SISD will utilize this information to consider transitioning to a higher risk scenario to protect our students, families, and staff members.

If there are active COVID-19 cases in an SISD school community, or another island community, that could directly impact SISD families, SISD reserves the right to temporarily transition to a Red/High Risk (distance instruction) scenario for deep cleaning of SISD buildings and while Public Health completes contact tracing and quarantining of those who could directly impact SISD. Once contact tracing is complete SISD shall consult with Public Health and the district's Medical Advisory Committee to determine the district's risk level.

SISD will provide bus service during Orange/Substantial, Yellow/Moderate and Blue/Low Risk scenarios. SISD will provide service to south side of Thorne Bay, Hollis, Klawock and Craig. Due to federal regulations for which the school district has no control, students and bus drivers are required to wear masks at all times when boarding, exiting, and riding on the bus. During Red/High Risk scenarios when the district has moved to a distance instructional model bus service will be cancelled.

AK-TRAILS Statewide Homeschool office's (Thorne Bay, Naukati, Coffman Cove and Port Alexander) will follow all guidelines and mandates for the municipality the office is located. Furthermore, AK- TRAILS offices will institute the State of Alaska Phase 3 and 4 COVID-19 guidelines located at <https://covid19.alaska.gov/reopen/>, specifically guidelines for Attachment D "Public Facing Businesses" to include:

- Social distancing
- Hygiene best practices
- Staffing
- Cleaning and disinfecting

3. [Handwashing and respiratory etiquette](#)

To help prevent the spread of the COVID-19 virus, SISD has the opportunity and responsibility to educate students, families, and staff on social etiquette, good health and hygiene habits, and disease prevention. SISD will provide regular hand-washing and respiratory hygiene/cough etiquette education for all K-12 students. Our basic educational message will be:

- Cover your cough
- Wash hands often
- Stay home if sick
- Wear appropriate Personal Protective Equipment (PPE)

4. [Cleaning and maintaining healthy facilities, including improving ventilation](#)

American Rescue Plan Act Mitigation and Prevention Plan

The safety of our students and staff are our primary priority. SISD schools will be completely cleaned and disinfected regularly, and we will continue to adhere to all necessary safety precautions. In addition to the regular deep cleaning all school facilities, the cleaning steps outlined below are to be taken to disinfect workplace surfaces, chairs, tables, etc., to protect students and employees and reduce the risk of spread of infection.

General Disinfection Measures

Area	Frequency
Classrooms and Offices	At the end of each day
Appliances	Daily
Electronic Equipment	At the end of each use
General used objects like light switches, handles, sinks, restrooms	At least 2 times a day
Buses	At the end of each use
Common Areas	At the end of each use and/or between groups

Deep cleaning is triggered when an active student or employee is identified as positive for COVID-19 based on testing. When a student or employee with a suspected infectious disease is identified and has left the building, their work area, along with any other known places they have been will be thoroughly cleaned and disinfected. The person cleaning and disinfecting will wear a mask and gloves and will discard them immediately afterwards. Hands will be washed and sanitized at the completion of the procedure. During times of a specifically known or suspected disease outbreak, SISD will consult public health officials to determine if there is a proper way to discard waste or if other PPE should be worn by staff.

Additionally, a bleach solution spray bottle and/or disinfecting wipes will be provided to all classrooms, offices, and work locations. SISD employees are required to regularly disinfect personal workstations each day, schedule regular times during the school day for students to disinfect their personal workstations and disinfect all appliances and electronic equipment after each use.

SISD will utilize portable HEPA filter air purifier systems in classrooms and office space to improve indoor air quality.

SISD has contractors coming in to address improvements in air quality and ventilation in district buildings. SISD contracted ATS to develop a condition survey on the Throne Bay School and to tune and survey both Coffman and Naukati School buildings specifically focused on each school's HVAC and controls. This will help drive our CIP (Capital Improvement Plan) School Mechanical Control Upgrades in Thorne Bay where we still operate on pneumatic controls.

SISD will be making some improvements in Kasaan to help create space for social distancing and provide updated surfaces that are easier to clean. This is a small three-room school with a detached library that was used by the community as well as the district prior to Covid. The building is being repaired and

American Rescue Plan Act Mitigation and Prevention Plan

updated surfaces to better serve SISD's needs. Creating space to further isolate groups from each other and to reduce the risk of spread through updated cleaning surfaces.

5. [Contact tracing in combination with isolation and quarantine, in collaboration with the State, local, territorial, or Tribal health departments](#)

If a student or employee becomes ill at work and is exhibiting one or more of the COVID-19 symptoms outlined below they will be asked to leave and go home immediately. If a student or employee becomes ill at home and is exhibiting one or more of the COVID-19 symptoms **outlined below** they will be asked to stay at home. The student or employee should be tested for COVID-19 and, if necessary, be evaluated by their health care provider. Due to the severe nature of a potential positive COVID-19 diagnosis, parents are asked to immediately pick their student up upon notification from the school that their child is exhibiting symptoms related to COVID-19. Any staff member exhibiting COVID-19 symptoms is asked to immediately notify their direct supervisor of their symptoms and leave school premises.

- Cough
- Shortness of breath or difficulty breathing
- Tiredness or fatigue
- Chills
- Repeated shaking with chills
- Muscle or body aches
- Headache
- Sore throat
- New loss of taste or smell
- Diarrhea
- Congestion or runny nose
- Nausea or vomiting
- Feeling feverish or a measured temperature greater than or equal to 100.3 degrees Fahrenheit

Employees returning to work from an approved medical leave may be asked to submit a healthcare provider's note before returning to work. The student or staff member may not return to school until they have met one of the following criteria:

- If they test positive, they must stay home for 10 days since their first symptom or their positive test, whichever is earlier. Once it has been 10 days, they may return to school once they have not had a fever in 24 hours without the use of fever reducing medicine, as long as their other symptoms are improving.
- If they test negative, they may return to school when they have not had a fever in 24 hours without the use of fever reducing medicine and their other symptoms are improving.
- If they do not get a test, they must stay home for 10 days. They may return to school when it has been 10 days and they have not had a fever in 24 hours without the use of fever reducing medicine and their other symptoms are improving.
- If their health care provider determines there is an alternative diagnosis to COVID-19 causing their symptoms, they may be allowed back to school before 10 days and without a negative test as long as the following criteria are met:

American Rescue Plan Act Mitigation and Prevention Plan

- Their symptoms have resolved and they have not had a fever in 24 hours without the use of fever reducing medicine, and
- They have a note from their health care provider saying it is safe for them to come back to school.

Each school will have an illness tracking Google.doc. Staff will be educated on how and why to complete the form. Each student and employee who is absent or sent home due to illness is put on this list, symptoms are documented and travel history (in last 14 days) is charted. Questions that will be asked on the illness tracking Google.doc will be the following:

- What are the symptoms?
- Have they travelled in the last 14 days?
- Have they been in contact with anyone with coronavirus?

While we all hope to avoid exposure to illness from COVID-19, we need to be prepared for that possibility. If you or someone you've been in contact with has been exposed to the virus, our first concern is for your health and safety and those around you. Your local public health authorities make the final decisions about how long quarantine should last, based on local conditions and needs. Follow the recommendations of your local public health department if you need to quarantine. Options they will consider include stopping quarantine

- After day 10 without testing
- After day 7 after receiving a negative test result (test must occur on day 5 or later)

The student and staff member will be allowed to return to school upon receipt of a release from quarantine letter from Craig Public Health. In this rapidly changing situation, healthcare providers should have the most up-to-date information from CDC.

For all out of state travel SISD staff and students shall follow all state travel orders, mandates, and health advisories and alerts.

6. [Diagnostic and screening testing](#)

SISD has prioritized ARPA funding to provide testing for all student extra-curricular events for the student participants and coaches/chaperones to ensure students have access to these "outside" school learning activities. SISD has also prioritized ARPA funding to provide testing for all staff members engaged in district business who are required to travel off island to other Alaskan communities.

In partnership with SEARHC, SISD has a year-long contract for testing. All students and staff members traveling off island for district sponsored extra-curricular events or district sponsored business shall receive a COVID-19 test and negative results prior to travel to ensure all SISD students and staff are symptom free of COVID-19.

Student and staff travel to other Alaskan communities for athletic and extracurricular events will be determined on a case by case basis based on the mitigation plans of the host's and visiting school's mitigation plans and will be approved by the SISD athletic director, principal, and superintendent.

SISD will follow ASAA COVID-19 Practice Guidelines and ASAA COVID-19 Event Guidelines for athletics and

American Rescue Plan Act Mitigation and Prevention Plan

extra-curricular activities.

7. [Efforts to provide vaccinations to educators, other staff, and students, if eligible](#)

SISD has partnered with SEARHC, PEACE Health, and Prince of Wales Public Health to provide staff, students, parents, and community members information about vaccinations. SISD has regularly sent out emails to staff, students, and parents regarding the availability of vaccinations and how to access.

SEARHC is making the Coronavirus vaccine available to our students who are 12 and older. To register parents only need to visit <https://covid19.searhc.org/> and access the link to register.

SISD is extremely appreciative of these resources that are being provided to our island students.

PEACE Health is also making the Coronavirus vaccine available for students 12 and older. Vaccination appointments can be scheduled by calling 907-826-3257.

SISD will continue to work with local and state health agencies to support messaging and outreach about vaccination for members of school communities. SISD communication platforms will facilitate outreach to encourage vaccination of household members of school-age children as they become eligible. This will include outreach in a language that limited English proficient family members or students can understand and in alternate formats as needed to facilitate effective communication for individuals with disabilities.

8. [Appropriate accommodations for children with disabilities with respect to the health and safety policies](#)

Based upon specifications of their individualized education plans (IEPs/504 plans), students with disabilities may be served outside of their regular group time. Individual student services will be based upon a team decision for what is the best for each child based upon the child's disability. This may include in person school during school closures for a full or partial day. This may include continued provision of school transportation during times that busses are cancelled due to school closures. This may include additional services provided in a home-based environment, special equipment provided in the home, etc. Requirements for the use of masks and other PPE will be determined on an individual basis for students with disabilities.

Continuity of Services

Describe how the district will ensure continuity of services including, but not limited to, services to address students' academic needs, as well as the social, emotional, mental health, and other needs of students and staff (e.g., student health and food service).

SISD has a full-time school counselor on staff to serve our K-12 students. The counselor will work with SISD administration to determine when her services will be provided in-person or remotely. The counselor will work with schools to support staff with best practices around Trauma Informed Practices. A focus will be placed on supporting a positive climate and culture that acknowledges universal trauma care strategies for students.

American Rescue Plan Act Mitigation and Prevention Plan

Additionally, SISD has a one-to-one electronic device program for all K-12 students. In the event the district or a specific school has to move to Red/High Risk Scenario Distance Learning students will be able to access all classroom content through their electronic devices. All SISD schools will utilize the CANVAS electronic learning platform, Google Classroom, Edgenuity and/or Zoom to provide distance instructional support. All SISD schools will also utilize web-based educational platforms, teacher developed instructional packets, and one-on-one teacher check-ins with each student.

In the event the district or a specific school has to move to Red/High Risk Scenario Distance Learning SISD will provide breakfast and lunch service that is either picked up or delivered to specific locations within the community for student and family pick-up for all students 18 years old and younger.

Periodic Review

Describe how the district will periodically review and revise its mitigation plan, as appropriate, including a description of how the district will seek public input and take such input into account on (1) whether revisions are necessary and, if so, (2) the proposed revisions to the plan.

Important Note: The district must review its mitigation plan no less frequently than every six months for the duration of the ARP ESSER grant period (i.e., through September 30, 2023).

SISD developed a survey for all students, staff, parents, community members asking for input for the district's preparations for the 2021-2022 school year that was administered to all students, parents, staff, and community members from May 24, 2021 to June 9, 2021. Survey results can be accessed https://docs.google.com/spreadsheets/d/1EvxbFHbx4DJzmaRk72ooCEFESlaaN5LZd_Q8kiNJOnC/edit?usp=sharing

Additionally, the SISD has developed a Mitigation Advisory Committee to develop recommendations for the Board's consideration for the development of SISD's ARPA Mitigation and Prevention Strategies (Back to School 2021-22 Plan). The SISD Mitigation Advisory Committee is comprised of members from the different SISD stakeholder groups:

- Certified Teachers
- Classified Staff Members
- Parents
- Students
- SISD Administrators
- SISD Technology Director
- Prince of Wales Medical Providers
- SISD Board President

The Committee will review the stakeholder survey data, review the current SISD Smart Start to School Guidelines, review the guidelines with the American Rescue Plan Act Mitigation Template, and develop a Mitigation and Prevent Strategy following DEED's ARPA guidelines.

The SISD Board Mitigation Advisory Committee will meet monthly to review the SISD's ARPA Mitigation and Prevention Strategies and provide recommendations to the SISD School Board for their consideration. The SISD ARPA Mitigation and Prevention Strategies will be a regular "Old Business" agenda item each month for the SISD Board's consideration.
