

CAVALIER NEWS

FEBRUARY 2022

A NOTE FROM PRINCIPAL MILLER

Fleming Middle School Families,

We hope that the new year has started off well for all of you. We are busy with learning and activities every day here at Fleming Middle School.

Our focus remains to cultivate a positive climate and create the best learning environment possible. High quality instruction and student learning are our highest priorities. Everything that we do at Fleming Middle School is designed to help students learn in all areas and be successful well beyond their time in middle school. Once again, that partnership between school and home is a key ingredient for student success. With that said, we hope that your students are feeling safe and supported. This is an interesting time in their lives and development, and can be challenging at times. If you have questions and or concerns, we want to hear from you.

It is hard to believe that we have passed the halfway point of the year. Students are settled in routines and understand our school- wide expectations. Teachers have worked hard to create meaningful learning opportunities and teach school-wide behavior expectations. Consistency and predictability are key factors for student success, as well as a calm learning environment to better focus on learning.

A reminder about attendance: If your child is going to be absent, please call the front office at 541-476-8284 to excuse them.

Phones: Just a reminder that students should NOT have their cell phones out during school. We are continuing to remind students everyday about this. Thank you for your help.

Vaping: Last week we had a vaping situation that involved a lot of students. Please talk with your child about vaping and if they do vape to not do it at school. It has become very popular among middle school students.

We're fortunate to work with your students every day. Thank you for allowing us to play a role in their development.

Go Cavs!!

Brian Miller

SCREENAGERS-GROWING UP IN THE DIGITAL AGE

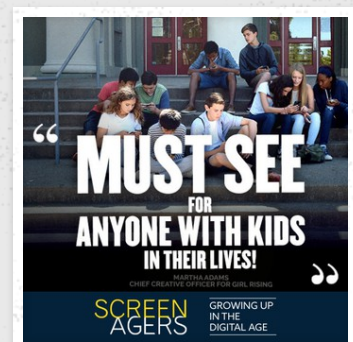

On March 3rd, TRSD is hosting a free online event for everyone who signs up!

See a trailer of Screenagers by [clicking here](#)

SCREENAGERS reveals how tech time impacts kids' development and also offers solutions on how adults can empower their kids to best navigate the digital world to find balance.

SCREENAGERS is the first feature documentary to explore the impact of screen technology on kids and offer parents and families proven solutions that work. What started out as a personal story for one has grown into a national movement, helping millions of teens and their families navigate growing up in a world with instant access to screens.

Leading brain scientists present evidence on the real changes in the brain when kids are on screens.

[SCREENAGERS: Growing Up in The Digital Age](#) has been screened more than 8,000 times to 4 million people in more than 70 countries around the world.

SCREENAGERS goes far beyond exposing the risks of screen time, it reveals multiple approaches on how parents and educators can work with kids to help them achieve a healthy amount of screen time.

Our community wide viewing event brings parents and educators together to start a conversation about how screen time impacts student's lives and what they can do about it.

Parents are encouraged to watch with their children.
