Keynote AddressJeff Crews, Beyond the Chalk

Beyond the Chalk was co-founded by two educators who believe in the power of education and the need to continuously provide transformational learning experiences for our teachers and students. We feel technology, when used effectively as a tool by teachers and students, can facilitate the change from the traditional form of education to a 21st century paradigm. Beyond the Chalk is committed to providing a set of rich and diverse professional development experiences for all educators. These experiences focus on the integration of technology across grade levels, content domains, and skills levels.
