RE: 2022 Summer Early Equipment Release

DATE: January 11th, 2022

At 2:00 pm on Wednesday December 29th, 2021, sealed bids were opened publicly for the D97 2022 Summer Life Safety Improvement, Bid Group 1A trade which includes Early Equipment Release. The bid was sent out early due to the extremely long lead times of the mechanical equipment which includes (4) roof top units (RTU's) at Hatch, (5) RTU's at Irving, (1) RTU at Whittier and (1) cabinet heater at Lincoln.

D97 & Bulley completed a scope review and reached out to our mechanical engineer to complete a price comparison from two other manufacturers and it was determined that the pricing was in line. On January 5th, FAC also reviewed the bid summaries and recommended awarding of bids in accordance with the attached summaries.

Administration would like board approval of the Early Equipment Release Bids on January 11th, 2022.
