RE: Request to place on Board agenda

This is a request to place this on the board agenda for the board members consideration for approval. I would like to recommend the following staff attend the APBS National Conference in Denver, CO on March 10-12, 2011. The Positive Behavior Support program has been implemented at our school and our staff would benefit from this conference. They can return and share this information with the k-6 staff. The funding for this would be from The Small Rural Schools
