Re: Celebrating Success Sprague

The Music, Art, PE and Spanish teachers will present a 10-minute overview showcasing their MAPS programs. The presentation will highlight student-centered learning, high levels of creativity, and the strong sense of agency students demonstrate in these classes. It will feature examples of classroom projects, interdisciplinary connections, and student work that illustrate why MAPS classes are consistently among students' favorites. The presentation demonstrates how these programs foster engagement, creativity, and skill development across the curriculum.
