Taxing Entities in Denton County

- Re: 1. Property Tax Consolidated Collection Interlocal Agreements
2. Tax Rate Survey for 2011

Greetings,

Your 2011-2012 Interlocal Agreement for property tax collection has been added into your Entity Folder. The single major change this year is that the collection rate is being reduced from \$.74 (74 cents) per parcel per mailing to \$.71 (71 cents) per parcel per mailing.

Also located in your Entity Folder is the annual tax rate calculation survey. The information is necessary to calculate the 'Truth in Taxation' rates that must be published and which the board will use in setting the tax rate for 2011.

The survey needs to be completed and returned to the Tax Office to Michelle French's attention by July 18. This will enable the staff to begin your calculations as soon as the certified tax roll is released by the Appraisal District.

Please have your governing board approve the Interlocal Agreement at the next board meeting at which it can be included on the agenda.

Please remember to return 3 signed copies of the Interlocal Agreement.

Once the Agreement is signed please return it to the TAX OFFICE at the address above.

Returning the Agreement to any office other than the Tax Office will delay its processing.

Sincerely,
Steve Mossman, RTA
