Subject: Consider Approval of RFP #3334-25 Apple Products Residual Value

Background Information:

- Technology staff identified approximately 9,251 Apple products as end-of-life and no longer supported to be declared as surplus. Sale of these items will provide a residual value to the District for technology devices. These Apple products primarily consist of MacBooks, iPads, iMacs, repair parts, accessories, and other related parts.
- The District has conducted six residual value processes since 2018 and has received approximately \$7.9 million from the sale of Apple products.
- The Technology Department evaluated the submitted proposals and determined that naming a primary and one secondary vendor would provide the best value to the District.
- The recommended vendor(s) have offered a guaranteed unit price to collect all devices in as-is, where-is condition with all faults.
- If approved, the Lewisville ISD Technology Department will coordinate with the selected vendor for the pickup of Apple devices between December 9, 2025, through January 30, 2026. However, these dates are subject to change.
