SECTION I – INTRODUCTORY SECTION

November 10, 2023

To the Citizens of the School District, Board of Education, and Employees of the School District:

PREFACE

The Annual Comprehensive Financial Report (Annual Report) of Independent School District No. 272, Eden Prairie Public Schools (the District) is submitted for the fiscal year ended June 30, 2023. The District's administration accepts total responsibility for the accuracy, completeness, and fairness in presentation of the enclosed financial reports. An independent firm of certified public accountants audits this report.

Independent School District No. 272, also known as Eden Prairie Schools, is an instrumentality of the state of Minnesota established to function as an educational institution. The elected School Board is responsible for legislative and fiscal control of the District. A Superintendent is appointed by the School Board and is responsible for administrative control of the District. There are no other entities for which the District is considered financially accountable.

The Annual Report is presented in three primary sections as follows:

- Introductory Section
- Financial Section
- Statistical Section

The introductory section includes an organizational chart, list of School Board members and administration, and this transmittal letter. The financial section includes the independent auditors' report, management's discussion and analysis, basic financial statements, individual fund statements and related schedules, and required supplementary information. The statistical section includes selected financial and demographic information generally presented on a multiyear comparative basis.

The District is required to undergo an annual audit of its Federal Financial Assistance (Single Audit) in accordance with *Government Auditing Standards*, as issued by the Comptroller General of the United States, and the provisions of the Office of Management and Budget Uniform Guidance. Information related to the Single Audit is issued separately and is not included in this report.

DISTRICT GOALS

School District Mission: Inspire each student to learn continuously so they are empowered to reach personal fulfillment and contribute purposefully to our ever-changing world. To complete our mission, we have created strategic results: Authentic and Personalized Learning, Well-Being, and Inclusion and Belonging. These results are further defined as follows:

- We will inspire students to engage and achieve at high levels through authentic and personalized learning experiences.
- We will nurture well-being among all students and staff by fostering belonging, ensuring physical and emotional health, and promoting safety, kindness, and personal responsibility.
- We will cultivate an inclusive learning environment that fosters a sense of belonging for each student within our diverse community.

The School Board governs under a Policy Governance model, which provides a clear differentiation between governance and management responsibilities in organizations. Within this governance structure, the School Board has set parameters in the areas of Board Management Delegation, Executive Limitations (EL), and Ends Policies. The School Board has overall control of the organization. Through its policies, the Superintendent is the School Board's link to operational achievement and conduct, so that all authority and accountability of staff, as far as the School Board is concerned, is considered the authority and accountability of the Superintendent. The School Board's EL defines the parameters within which the Superintendent works, outlining the expectations and limitations of the organization.

Executive Limitations

The Superintendent shall not cause or allow any practice, activity, decision, or organizational circumstance that is unlawful, unethical, imprudent, or in violation of commonly accepted business and professional practices.

1. Emergency Superintendent Succession
2. Treatment of Students
3. Treatment of Parents
4. Treatment of Staff
5. Financial Management and Operations
6. Financial Planning and Budgeting
7. Asset Protection
8. Compensation and Benefits
9. Communication and Support to the School Board

Ends Policies

Eden Prairie Schools exist so that each student obtains an outstanding education that prepares them for their next stage of life in a manner that justifies the resources expended.

1. Each student graduates and is academically prepared to progress to multiple opportunities after high school
2. Each student has the 21st century skills needed to succeed in the global economy
3. Each student has the knowledge that citizens and residents of the United States need to contribute positively to society

DISTRICT FISCAL FRAMEWORK

The District has been functioning under financial constraints over the past several years as a result of:

- Insufficient increases in state funding
- Inflationary pressures on key expenditure areas

The District has been proactively planning for conditions affecting school funding considering:

- State economic and political conditions
- Enrollment projections and trends
- Necessary budget adjustments and expenditure reductions

Strong community partnerships have enhanced the success of the District. The Citizen’s Financial Advisory Committee continues to function as a key committee, guiding the District’s financial planning and long-term outlook on investment decisions. This committee’s purpose is to assist the District in financial analysis and long-range financial planning. Specifically, the purposes of the committee are as follows:

- To inform members on school district finances
- Engage in discussion of financial goals
- Empower members as ambassadors
- Advise administration on the financial direction to support the mission of Eden Prairie Schools

LOCAL ECONOMIC CONDITION

Eden Prairie is a relatively stable suburban area southwest of the twin cities of Minneapolis and St. Paul that covers 36 square miles with an estimated population of 64,142. Eden Prairie residents enjoy amenities, including transportation, employment opportunities, housing, educational institutions, and a quality school district.

Learners in the District attend eight district sites. The District operates six pre-kindergarten through fifth grade elementary schools with five boundary schools and a Spanish Immersion School. The Eagle Heights Spanish Immersion School is housed in the same building as the Oak Point Elementary School. Eden Prairie’s sixth through eighth graders attend Central Middle School, while Eden Prairie High School is home to students in Grades 9 through 12. The District opened Eden Prairie Online School in the 2021–2022 school year, educating kindergarten through Grade 12 students. Eden Prairie Online School is servicing not only Eden Prairie residents, but many open-enrolled students from all over the state. The District’s Administrative Services Center houses Community Education programs and other administrative support departments. The Teaching All Students Skills for Employment and Life (TASSEL) Transition Program is located in the Education Center. In total, district-owned instruction and administrative buildings account for 1,943,247 square feet of space with an average age of 36 years.

As one of the largest employers in the city with approximately 2,300 staff members, the District plays a dual role in economic development. The highly skilled staff remains focused on the mission: “Inspire each student to learn continuously so they are empowered to reach personal fulfillment and contribute purposefully to our ever-changing world.” The District’s commitment to quality and service is among the reasons it operates its own student transportation system and food service program. Buildings and grounds staff members are responsible for maintaining the facilities to ensure a healthy and safe learning environment. A dedicated auxiliary staff, including a wide variety of positions, such as lunchroom/playground supervisors, computer assistants, network managers, special education inclusion assistants, clerical staff, and health assistants, collaborate in advancing our goals.

The District has a long reputation for fiscal soundness and efficiency. District expenditures per pupil are consistently among the lowest in Hennepin County, while maintaining high achievement standards in both academic and extracurricular activities.

DISTRICT ECONOMIC CONDITION

The District's School Board policy establishes the District will strive to maintain a minimum unassigned General Fund balance of 8.0 percent of annual budgeted expenditures to ensure financial health and viability. Each year, the School Board is presented with a five-year financial forecast that considers enrollment projections, expenditure increases, efficiencies, and other financial assumptions. Additionally, the District has a finance committee comprised of School Board member(s), community members, and staff that review a range of finance-related elements several times per year. This ensures that the District is planning for the current reality, as well as the future. A new operating referendum and renewal of the Capital Projects Levy were passed in 2022. The operating referendum will continue to bring stability to the District's finances and contribute to building a strong General Fund unassigned fund balance by increasing revenues with its passage.

The District's General, Food Service, and Community Service Funds were greatly impacted by the COVID-19 pandemic. The District received over \$16 million in federal aid to help overcome the financial burdens that have been caused by the pandemic. These funds will continue to be used to support students through the 2023–2024 school year.

ENROLLMENT

Enrollment is a critical factor in determining funding levels. Approximately 66 percent of the General Fund revenue is enrollment driven. During fiscal year 2023, enrollment increased 49 average daily memberships to 8,987.

Student Enrollment (Average Daily Membership)

In 2023, the District saw an increase in student enrollment within its brick-and-mortar sites, which was slightly offset by a decrease in student enrollment within its Eden Prairie Online program. The enrollment and demographic changes presented above offer both financial and strategic challenges and opportunities for the District.

INTERNAL CONTROL STRUCTURE AND BUDGETARY CONTROL

The District complies with the Uniform Financial Accounting and Reporting Standards (UFARS) for Minnesota Schools. The UFARS, established in 1976, dictates a modified accrual basis of accounting. An audited annual financial report must be provided to the Minnesota Department of Education by December 31, subsequent to year-end on June 30.

The District has established a system of internal controls that provide reasonable assurance that assets are safeguarded from misuse or losses. Reasonable assurance means the cost of controls is weighed against the benefits received. The District utilizes an integrated payroll/finance system for all financial recordkeeping. Encumbrances, or open purchase orders, are used as a budgetary control tool and are charged against line-item budgets when issued. To accurately track and report financial activities with a focus on site-based accounting, approximately 13,000 accounts have been defined within the District's chart of accounts. Each site and department administrator has access to the finance system to extract reports and review detailed budget activity specific to their area of responsibility. The District's administration receives and reviews monthly financial reports. These reports are also presented to the School Board and are publicly available as part of the School Board's meeting materials.

The District's budgeting process begins with a review and estimation of the projected student enrollment. Student enrollment is the main driver of the allocation of the unrestricted revenue resources. A majority of the budgeting decisions are made centrally, including staffing, capital expenditures, and infrastructure improvements. Budget managers receive an allocation for site or department-specific needs. The District adopts an annual budget for all governmental funds that is prepared on the same basis of accounting as the fund financial statements. Legal budgetary control is at the fund level.

INDEPENDENT AUDIT AND CERTIFICATE OF EXCELLENCE

State statutes require an annual audit by independent certified public accountants. The accounting firm of Malloy, Montague, Karnowski, Radosevich & Co., P.A. was selected by the District's School Board to conduct the annual audit.

This report has been prepared following the guidelines provided by the Association of School Business Officials (ASBO) International and the Government Finance Officers Association (GFOA) for their Certificates of Excellence in Financial Reporting Programs. Achieving recognition by these programs provides a clear indication of the District's high standards for financial reporting. The District intends to submit this Annual Report to the ASBO International and the GFOA Certificate Programs for consideration. The District has received the ASBO International Certificate of Excellence in Financial Reporting for the Annual Report for the last 23 financial years, and the GFOA Certificate of Achievement for Excellence in Financial Reporting for the past 9 years.

INDEPENDENT AUDITOR'S REPORT

To the School Board and Management of
Independent School District No. 272
Eden Prairie, Minnesota

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

OPINIONS

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Independent School District No. 272 (the District) as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2023, and the respective changes in financial position, and, where applicable, cash flows thereof, and the budgetary comparisons for the general and major special revenue funds for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

BASIS FOR OPINIONS

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

RESPONSIBILITIES OF MANAGEMENT FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

(continued)

AUDITOR’S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinions. Reasonable assurance is a high level of assurance, but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District’s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District’s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

REQUIRED SUPPLEMENTARY INFORMATION

Accounting principles generally accepted in the United States of America require that the management’s discussion and analysis and the required supplementary information (RSI), as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the RSI in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

(continued)

SUPPLEMENTAL INFORMATION

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplemental information, as listed in the table of contents, is presented for purpose of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

OTHER INFORMATION

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections, but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

PRIOR YEAR COMPARATIVE INFORMATION

We have previously audited the District's 2022 financial statements, and we expressed unmodified audit opinions on the respective financial statements of the governmental activities, each major fund, and the aggregate remaining fund information in our report dated November 8, 2022. In our opinion, the partial comparative information presented herein as of and for the year ended June 30, 2022 is consistent, in all material respects, with the audited financial statements from which it has been derived.

OTHER REPORTING REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 10, 2023 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

INDEPENDENT SCHOOL DISTRICT NO. 272

Management's Discussion and Analysis Year Ended June 30, 2023

This section of Independent School District No. 272's (the District) Annual Comprehensive Financial Report (ACFR) presents management's narrative overview and analysis of the District's financial performance during the fiscal year ended June 30, 2023. Please read it in conjunction with the other components of the District's ACFR.

FINANCIAL HIGHLIGHTS

- The District's liabilities and deferred inflows of resources exceeded its assets and deferred outflows of resources at June 30, 2023 by \$7,913,076 (net position deficit). The District's total net position increased by \$25,603,954 during the fiscal year ended June 30, 2023.
- Government-wide revenues totaled \$169,473,313 and were \$25,603,954 more than expenses of \$143,869,359.
- The General Fund's total fund balance (under the governmental fund presentation) decreased \$1,292,576 from the prior year, to a year-end balance of \$29,565,409, compared to a \$4,725,225 decrease planned in the budget.

OVERVIEW OF THE FINANCIAL STATEMENTS

The financial section of the ACFR consists of the following parts:

- Independent Auditor's Report;
- Management's discussion and analysis;
- Basic financial statements, including the government-wide financial statements, fund financial statements, and the notes to basic financial statements;
- Required supplementary information; and
- Supplemental information consisting of combining and individual fund statements and schedules.

The following explains the two types of statements included in the basic financial statements:

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements (Statement of Net Position and Statement of Activities) report information about the District as a whole using accounting methods similar to those used by private sector companies. The Statement of Net Position includes *all* of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, except for the fiduciary funds. All of the current year's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The two government-wide financial statements report the District's *net position* and how it has changed. Net position—the difference between the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources—is one way to measure the District's financial health or *position*.

- Over time, increases or decreases in the District's net position are indicators of whether its financial position is improving or deteriorating, respectively.
- To assess the overall health of the District requires consideration of additional nonfinancial factors, such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the government-wide financial statements the District's activities are all shown in one category titled "governmental activities." These activities, including regular and special education instruction, transportation, administration, food services, and community education, are primarily financed with state aids and property taxes.

FUND FINANCIAL STATEMENTS

The fund financial statements provide more detailed information about the District's *funds*, focusing on its most significant or major funds, rather than the District as a whole.

Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs. For Minnesota schools, funds are established in accordance with Uniform Financial Accounting and Reporting Standards in accordance with statutory requirements and accounting principles generally accepted in the United States of America. Some funds are required by state law and by bond covenants. The District can establish other funds to control and manage money for particular purposes or to show that it is properly using certain revenues.

The District maintains the following kinds of funds:

Governmental Funds – The District's basic services are included in governmental funds, which generally focus on: 1) how *cash and other financial assets* that can readily be converted to cash flow in and out, and 2) the balances left at year-end that are available for spending. Consequently, the governmental fund financial statements provide a detailed *short-term* view that helps to determine whether there are more or less financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide financial statements, we provide additional information (reconciliation schedules) immediately following the governmental fund financial statements that explain the relationship (or differences) between these two types of financial statement presentations.

Proprietary Funds – The District maintains one type of proprietary fund. The internal service funds are used as an accounting device to accumulate and allocate costs internally among the District's various functions. The District uses its internal service funds to account for the self-insurance activities of district employees' medical and dental claims. These services have been included within governmental activities in the government-wide financial statements. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail.

Fiduciary Funds – The District is the trustee, or fiduciary, for assets that belong to other organizations. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. All of the District's fiduciary activities are reported in a separate Statement of Fiduciary Net Position and a Statement of Changes in Fiduciary Net Position. These activities are excluded from the government-wide financial statements because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Total net position	\$ (7,913,076)	\$ (33,517,030)

The District's financial position is the product of many factors. For example, the determination of the District's net investment in capital assets involves many assumptions and estimates, such as current and accumulated depreciation/amortization amounts. A conservative versus liberal approach to depreciation/amortization estimates, as well as capitalization policies, will produce a significant difference in the calculated amounts. Another major factor in determining net position as compared to fund balances are the long-term liabilities for compensated absences, pensions, and other post-employment benefits, which primarily impacts the unrestricted portion of net position.

Total net position increased by \$25,603,954 from current year operating results. Much of the increase is attributable to the change in the District's share of the Public Employees Retirement Association (PERA) and the Teachers Retirement Association (TRA) pension plans, which contributed to the change in deferred outflows, long-term liabilities, deferred inflows, and unrestricted net position. The increase in current assets is due to facilities maintenance and capital facilities bonds issued in the current year that will be spent in future years. The increase in net position restricted for capital asset acquisition, food service, community service, debt service, other post-employment benefits, and other state funding restrictions contributed to the change in this portion of net position.

This table is presented on an accrual basis of accounting, and it includes all of the governmental activities of the District. This statement includes depreciation/amortization expense, but excludes capital asset purchase costs, debt proceeds, and the repayment of debt principal.

Governmental activities revenues increased \$9,523,858 (6.0 percent) from the previous year, with funding improvements, improved investment earnings, and increased programming in community service.

Governmental activity expenses decreased \$5,682,942 (3.8 percent) from last year, mainly due to changes in state-wide pension plans, which more than offset inflationary spending increases.

Figure A shows further analysis of these revenue sources:

Figure A – Sources of Revenues for Fiscal Years 2023 and 2022

The largest share of the District’s revenue is received from the state, including the general education aid formula and most of the operating grants.

Property taxes are generally the next largest source of funding. The level of funding property tax sources provide is not only dependent on taxpayers of the District by way of operating and building referenda, but also by decisions made by the Legislature in the mix of state aid and local effort in a variety of funding formulas.

Figure B shows further analysis of these expense functions:

Figure B – Expenses for Fiscal Years 2023 and 2022

The District's expenses are predominately related to educating students. Programs (or functions), such as elementary and secondary regular instruction, vocational education instruction, special education instruction, and instructional support services are directly related to classroom instruction, while the rest of the programs support instruction and other necessary costs to operate the District. The shift in expenses between programs and the decrease in elementary and secondary regular instruction when compared to prior year, was largely due to changes in the TRA state-wide pension plan obligations.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The financial performance of the District as a whole is also reflected in its governmental funds. Table 3 shows the change in total fund balances of each of the District's governmental funds:

	<u>2023</u>	<u>2022</u>	<u>Change</u>
Major funds			
General	\$ 29,565,409	\$ 30,857,985	\$ (1,292,576)
Food Service	1,601,422	1,422,101	179,321
Community Service	3,007,541	1,106,042	1,901,499
Capital Projects – Building			
Construction	12,707,633	3,454,148	9,253,485
Debt Service	<u>2,179,743</u>	<u>1,714,937</u>	<u>464,806</u>
Total governmental funds	<u>\$ 49,061,748</u>	<u>\$ 38,555,213</u>	<u>\$ 10,506,535</u>

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as they represent the portion of fund balance, which has not yet been limited to use for a particular purpose by either an external party, the District itself, or a group or individual that has been delegated authority to assign resources for use for particular purposes by the District's School Board.

At June 30, 2023, the District's governmental funds reported combined fund balances of \$49,061,748, an increase of \$10,506,535 in comparison with the prior year. Approximately 33.1 percent of this amount (\$16,254,607) constitutes unassigned fund balance, which is available for spending at the District's discretion. The remainder of the fund balance is either nonspendable, restricted, or assigned to indicate that it is 1) not in spendable form (\$1,053,299), 2) restricted for particular purposes (\$23,213,938), or 3) assigned for particular purposes (\$8,539,904). The majority of the increase was the result of the District issuing the 2023A General Obligation Facilities Maintenance and Capital Facilities Bonds to finance the acquisition and betterment of school sites and facilities.

ANALYSIS OF THE GENERAL FUND

Table 4 summarizes the amendments to the General Fund budget:

	Original Budget	Final Budget	Change	Percent Change
Revenues and other financing sources	<u>\$ 139,729,547</u>	<u>\$ 140,786,000</u>	<u>\$ 1,056,453</u>	<u>0.8%</u>
Expenditures and other financing uses	<u>\$ 143,959,123</u>	<u>\$ 145,511,225</u>	<u>\$ 1,552,102</u>	<u>1.1%</u>

The District is required to adopt an operating budget prior to the beginning of its fiscal year, referred to above as the original budget. During the year, the District amended the budget for known significant changes in circumstances, such as: updated enrollment estimates, legislative changes, additional funding received from grants or other local sources, staffing changes, employee contract settlements, insurance premium changes, special education tuition changes, or new debt issued.

Table 5 summarizes the operating results of the General Fund:

	2023 Actual	Over (Under) Final Budget		Over (Under) Prior Year	
		Amount	Percent	Amount	Percent
Revenue and other financing sources	\$ 144,013,222	\$ 3,227,222	2.3%	\$ 3,905,088	2.8%
Expenditures and other financing uses	<u>145,305,798</u>	<u>(205,427)</u>	(0.1%)	<u>4,305,962</u>	3.1%
Net change in fund balances	<u>\$ (1,292,576)</u>	<u>\$ 3,432,649</u>		<u>\$ (400,874)</u>	

The fund balance of the General Fund decreased \$1,292,576 compared to a planned decrease of \$4,725,225 approved in the final budget.

General Fund revenues and other financing sources for 2023 increased \$3,905,088 (2.8 percent), compared to the prior year, and were \$3,227,222 (2.3 percent) more than budget. The largest revenue variances occurred in other revenue, investment earnings, and federal sources. These favorable variances were largely due to conservative budgeting and improved investment returns. Federal sources exceeded budget mainly in special education funding.

The increase from the prior year was mainly in property taxes and state sources. Property taxes increased with the increased levy in the current year. The increase in state sources was mainly in general education aid with increased enrollment and improved funding.

Total General Fund expenditures and other financing uses for 2023 increased \$4,305,962 (3.1 percent) from the prior year. Current year expenditures and other financing uses of \$145,305,798 were \$205,427 (0.1 percent) under budget. The expenditure variance was spread across several programs and object categories of the General Fund, with the largest variances in capital expenditures and purchased services. Capital expenditures were under budget, due to the timing of capital spending in the current year. This was offset by purchased services, which were over budget, mainly in pupil support services, due to transportation costs.

The increase from the prior year was primarily in salaries and purchased services. Salaries increased mainly due to negotiated contract changes and added support personnel positions throughout the District. Purchased services increased with increased transportation costs.

COMMENTS ON SIGNIFICANT ACTIVITIES IN OTHER MAJOR FUNDS

Food Service Special Revenue Fund

The Food Service Special Revenue Fund ended the year with revenues exceeding expenditures, increasing total fund balance by \$179,321, compared to a balanced budget. Revenues were down with the end of free meals for all students and reductions in federal funding sources. An increase in salaries and employee benefits contributed to the increase in spending.

Community Service Special Revenue Fund

The Community Service Special Revenue Fund ended the year with revenues and other financing sources exceeding expenditures by \$1,901,499, compared to a planned fund balance increase of \$500,902. A current year transfer of \$17,485 was made from the General Fund to help support program activity in the Community Service Special Revenue Fund. Revenues and expenditures were more than prior year amounts, due to increased program participation in the current year.

Capital Projects – Building Construction Fund

The Capital Projects – Building Construction Fund is used to account for financial resources used for the acquisition or construction of major capital facilities. At June 30, 2023, the District had a fund balance of \$11,546,802 restricted for long-term facilities maintenance and \$1,160,831 restricted for capital projects. Fund balance increased \$9,253,485 during the year, due to the issuance of bonds to finance the acquisition and betterment of school sites and facilities.

Debt Service Fund

The Debt Service Fund revenues exceeded expenditures by \$464,806 in the current year. The funding of debt service is controlled in accordance with each outstanding debt issue's financing plan. The remaining fund balance of \$2,179,743 at June 30, 2023, is restricted for meeting future debt service obligations.

COMMENTS ON OTHER FUNDS

Internal Service Funds

Internal service funds are used to account for the financing of goods and services provided by one department or agency of a government to other departments or agencies on a cost-reimbursement basis. The District maintains two internal service funds. These funds are used to account for the District's self-insured health and dental benefits insurance activities. The net position balance for all internal service funds as of June 30, 2023 was \$8,838,708, which represents a \$155,890 decrease from the prior year. This was mainly due to increased health and dental claims in the current year.

CAPITAL ASSETS AND LONG-TERM LIABILITIES

Capital Assets

Table 6 shows the District's capital assets, together with changes from the previous year. The table also shows the total depreciation/amortization expense for fiscal years ended June 30, 2023 and 2022:

	<u>2023</u>	<u>2022</u>	<u>Change</u>
Land	\$ 6,774,893	\$ 6,774,893	\$ –
Construction in progress	3,948,269	52,383,103	(48,434,834)
Land improvements	15,583,235	12,948,655	2,634,580
Buildings and improvements	266,787,062	211,808,769	54,978,293
Equipment	29,164,328	27,605,589	1,558,739
Lease buildings and improvements	–	1,287,803	(1,287,803)
Lease equipment	–	289,563	(289,563)
Less accumulated depreciation/amortization	<u>(185,336,065)</u>	<u>(176,561,696)</u>	<u>(8,774,369)</u>
Total	<u><u>\$ 136,921,722</u></u>	<u><u>\$ 136,536,679</u></u>	<u><u>\$ 385,043</u></u>
Depreciation and amortization expense	<u><u>\$ 9,327,500</u></u>	<u><u>\$ 7,566,378</u></u>	<u><u>\$ 1,761,122</u></u>

By the end of 2023, the District had invested in a broad range of capital assets, including school buildings, athletic facilities, and other equipment for various instructional programs (see Table 6).

The changes presented in the table above reflect the ongoing activity and completion of projects at district sites during fiscal year 2023, consistent with the activity of the Capital Projects – Building Construction Fund discussed on the previous page.

The District defines capital assets as those with an initial, individual cost of \$5,000 or more, which benefit more than one fiscal year.

Additional details about capital assets can be found in Note 4 in the notes to basic financial statements.

Long-Term Liabilities

Table 7 illustrates the components of the District's long-term liabilities with changes from the prior year:

	<u>2023</u>	<u>2022</u>	<u>Change</u>
General obligation bonds payable	\$ 102,535,000	\$ 92,635,000	\$ 9,900,000
Unamortized premiums/discount	6,012,428	4,507,125	1,505,303
Finance purchases payable	1,728,439	3,259,542	(1,531,103)
Lease liability	–	1,420,653	(1,420,653)
Net/total pension liability	107,398,233	56,515,732	50,882,501
Compensated absences payable	441,662	445,161	(3,499)
Total	<u>\$ 218,115,762</u>	<u>\$ 158,783,213</u>	<u>\$ 59,332,549</u>

The changes in general obligation bonds payable and unamortized premiums/discount are due to the scheduled principal payments and amortization, offset by the sale of facilities maintenance and capital facilities bonds in the current year.

The decrease in finance purchases payable is due to scheduled principal payments in the current year.

The decrease in the lease liability is due to building and equipment leases terminated in the current year.

The difference in the net/total pension liability reflects the change in the District's proportionate share of the state-wide PERA and TRA pension plans.

The state limits the amount of general obligation debt the District can issue to 15.0 percent of the market value of all taxable property within the District's corporate limits (see Table 8):

District's market value	\$ 12,761,890,675
Limit rate	<u>15.0%</u>
Legal debt limit	<u><u>\$ 1,914,283,601</u></u>

Additional details of the District's long-term debt activity can be found in Note 5 in the notes to basic financial statements.

FACTORS BEARING ON THE DISTRICT'S FUTURE

With the exception of the voter-approved operating referendum, the District is dependent on the state of Minnesota for a majority of its revenue authority.

The general education program is the method by which school districts receive the majority of their financial support. This source of funding is primarily state aid and, as such, school districts rely heavily on the state of Minnesota for educational resources. The Legislature has added \$275, or 4.00 percent, per pupil to the basic general education funding formula for fiscal year 2024, and an additional \$143, or 2.00 percent, per pupil to the formula for fiscal year 2025.

The amount of funding a district receives is also dependent on the number of students it serves, meaning attracting and retaining students is critical to the District's financial well-being.

to the Statement of Activities
Governmental Funds
Year Ended June 30, 2023

(With Partial Comparative Information for the Year Ended June 30, 2022)

	<u>2023</u>	<u>2022</u>
Total net change in fund balances – governmental funds	\$ 10,506,535	\$ (10,800,610)
Amounts reported for governmental activities in the Statement of Activities are different because:		
Capital outlays are recorded as net position and the cost is allocated over their estimated useful lives as depreciation/amortization expense. However, fund balances are reduced for the full cost of capital outlays at the time of purchase.		
Capital outlays	10,915,404	17,084,951
Depreciation/amortization expense	(9,327,500)	(7,566,378)
A gain or loss on the disposal of capital assets and the lease liability, including the difference between the carrying value and any related sale proceeds, is included in the change in net position. However, only the sale proceeds are included in the change in fund balances.		
	46,500	–
The amount of debt issued is reported in the governmental funds as a source of financing. Debt obligations are not revenues in the Statement of Activities, but rather constitute long-term liabilities.		
General obligation bonds payable	(15,010,000)	–
Finance purchases payable	–	(2,422,250)
Lease liability	–	(1,287,803)
Repayment of long-term debt does not affect the change in net position. However, it reduces fund balances.		
General obligation bonds payable	5,110,000	6,030,000
Finance purchases payable	1,531,103	836,173
Lease liability	171,292	156,713
Interest on long-term debt is included in the change in net position as it accrues, regardless of when payment is due. However, it is included in the change in fund balances when due.		
	(97,013)	289,046
Debt issuance premiums/discounts are included in the change in net position as they are amortized over the life of the debt. However, they are included in the change in fund balances upon issuance as other financing sources and uses.		
	(1,505,303)	348,000
Certain expenses are included in the change in net position, but do not require the use of current funds, and are not included in the change in fund balances.		
Net pension liability	(50,882,501)	38,251,312
Net OPEB asset	28,146	(4,786,931)
Compensated absences payable	3,499	41,185
Internal service funds are used by management to charge the costs of certain activities to individual funds. The change in net position of the internal service funds is included in the governmental activities in the Statement of Activities.		
	(155,890)	1,113,964
The recognition of certain revenues and expenses/expenditures differ between the full accrual governmental activities financial statements and the modified accrual governmental fund financial statements.

INDEPENDENT SCHOOL DISTRICT NO. 272

Notes to Basic Financial Statements
June 30, 2023

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Organization

Independent School District No. 272 (the District) was formed and operates pursuant to applicable Minnesota laws and statutes. A School Board elected by the voters of the District governs the District. The District's financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

B. Reporting Entity

The accompanying financial statements include all funds, departments, agencies, boards, commissions, and other organizations that comprise the District, along with any component units.

Component units are legally separate entities for which the District (primary government) is financially accountable, or for which the exclusion of the component unit would render the financial statements of the primary government misleading. The criteria used to determine if the primary government is financially accountable for a component unit includes whether or not the primary government appoints the voting majority of the potential component unit's governing body, is able to impose its will on the potential component unit, is in a relationship of financial benefit or burden with the potential component unit, or is fiscally depended upon by the potential component unit. Based on these criteria, there are no organizations considered to be component units of the District.

C. Government-Wide Financial Statement Presentation

The government-wide financial statements (Statement of Net Position and Statement of Activities) display information about the reporting government as a whole. These statements include all the financial activities of the District, except for the fiduciary funds. Generally, the effect of material interfund activity has been removed from the government-wide financial statements. Transactions representing interfund services provided and used are not eliminated in the consolidation process to the government-wide financial statements.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other internally directed revenues are reported instead as general revenues.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are generally recognized as revenues in the fiscal year for which they are levied, except for amounts advance recognized in accordance with a statutory “tax shift” described later in these notes. Grants and similar items are recognized when all eligibility requirements imposed by the provider have been met.

Depreciation and amortization expense is included as a direct expense in the functional areas that utilize the related capital assets. Interest on debt is considered an indirect expense and is reported separately on the Statement of Activities.

D. Fund Financial Statement Presentation

Separate fund financial statements are provided for governmental, proprietary, and fiduciary funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this basis of accounting, transactions are recorded in the following manner:

- 1. Revenue Recognition** – Revenue is recognized when it becomes measurable and available. “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the District generally considers revenues, including property taxes, to be available if they are collected within 60 days after year-end. Grants and similar items are recognized when all eligibility requirements imposed by the provider have been met. State revenue is recognized in the year to which it applies according to funding formulas established by Minnesota Statutes. Food service sales, community education tuition, and other miscellaneous revenues (except investment earnings) are recorded as revenues when received because they are generally not measurable until then. Proceeds of long-term debt and acquisitions under leases are reported as other financing sources.
- 2. Recording of Expenditures** – Expenditures are generally recorded when a liability is incurred, except for principal and interest on long-term debt and other long-term liabilities, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as capital outlay expenditures in the governmental funds. In the General Fund, capital outlay expenditures are included within the applicable functional areas.

Internal service funds are presented in the proprietary fund financial statements. Because the principal users of the internal services are the District’s governmental activities, the internal service funds are consolidated into the governmental activities column when presented in the government-wide financial statements. The cost of these services is reported in the appropriate functional activity.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund’s principal ongoing operations. The principal operating revenue of the District’s internal service funds are charges to customers (other district funds) for service. Operating expenses for the internal service funds include the cost of providing the services. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fiduciary funds are presented in the fiduciary fund financial statements by type: pension (or other benefit) trust and custodial. Since, by definition, fiduciary fund assets are being held for the benefit of a third party and cannot be used for activities or obligations of the District, these funds are excluded from the government-wide financial statements.

Proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting as described earlier in these notes.

Description of Funds

The existence of the various district funds has been established by the Minnesota Department of Education (MDE). Each fund is accounted for as an independent entity. Descriptions of the funds included in this report are as follows:

Major Governmental Funds

General Fund – The General Fund is used to account for all financial resources except those required to be accounted for in another fund.

Food Service Special Revenue Fund – The Food Service Special Revenue Fund is primarily used to account for the District’s child nutrition program, which is financed through revenue from meal sales, state aids, and federal grants.

Community Service Special Revenue Fund – The Community Service Special Revenue Fund is used to account for services provided to residents in the areas of recreation, civic activities, nonpublic pupils, adult or early childhood programs, or other similar services. These activities are financed by program fees and tuition, property tax levies, and state aids.

Capital Projects – Building Construction Fund – The Capital Projects – Building Construction Fund is used to account for financial resources used for the acquisition or construction of major capital facilities authorized by bond issue or under the long-term facilities maintenance program.

Debt Service Fund – The Debt Service Fund is used to account for the accumulation of resources for, and payment of general obligation debt principal, interest, and related costs. The debt service account is used for all general obligation bond debt service.

Proprietary Funds

Internal Service Funds – The internal service funds account for the financing of goods or services provided by one department to other departments or agencies of the District, or to other governments, on a cost-reimbursement basis. The District’s internal service funds are used to account for dental and health insurance benefits offered by the District to its employees as self-insured plans.

Fiduciary Funds

Custodial Fund – The Custodial Fund is used as a flow through mechanism in which the District receives funds and distributes these funds to an outside organization, with no financial benefit to the District.

Post-Employment Benefits Trust Fund – The Post-Employment Benefits Trust Fund is used to administer resources received and held by the District as the trustee for others. The Post-Employment Benefits Trust Fund includes assets held in an irrevocable trust to fund post-employment insurance benefits for eligible employees and retirees.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. Budgetary Information

Each June, the School Board adopts an annual budget for the following fiscal year for all governmental funds. The budget for each fund is prepared on the same basis of accounting as the fund financial statements. Legal budgetary control is at the fund level. For the year ended June 30, 2023, actual expenditures exceeded budgeted appropriations in the following funds:

Fund	Budgeted Expenditures	Actual Expenditures	Excess
Food Service Special Revenue	\$ 5,219,310	\$ 5,532,411	\$ 313,101
Capital Projects – Building Construction	\$ 2,773,634	\$ 7,473,317	\$ 4,699,683

The excess expenditures were approved by the School Board as required by Minnesota Statutes, and were financed with revenues in excess of budget, other financing sources, or available fund balances.

F. Cash and Temporary Investments

Cash and temporary investments include balances from all funds that are combined and invested to the extent available in various securities as authorized by state law. Earnings from the pooled investments are allocated to the respective funds on the basis of applicable cash balance participation by each fund. Bond proceeds recorded in the Capital Projects – Building Construction Fund or resources held in the trust funds are not pooled, and earnings on those investments are allocated directly to the respective funds.

For purposes of the Statement of Cash Flows, the District considers all highly liquid debt instruments with an original maturity from the time of purchase by the District of three months or less to be cash equivalent. The Proprietary Fund's equity in the government-wide cash and investment management pool is considered to be cash equivalent.

Investments are generally stated at fair value, except for investments in certain external investment pools, which are stated at amortized cost. Short-term, highly liquid debt instruments (including commercial paper, bankers' acceptance, and U.S. treasury and agency obligations) purchased with a remaining maturity of one year or less may also be reported at amortized cost. Investment income is accrued at the Balance Sheet date.

The District categorizes its fair value measurements within the fair value hierarchy established by accounting principles generally accepted in the United States of America. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

Debt securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

See Note 2 for the District's recurring fair value measurements as of year-end.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Receivables

When necessary, the District utilizes an allowance for uncollectible accounts to value its receivables. However, the District considers all of its current receivables to be collectible. The only receivables not expected to be fully collected within one year are lease receivable and delinquent property taxes receivable.

At June 30, 2023, the District reported the following receivables due from other governmental units:

Due from the Minnesota Department of Education	\$ 16,008,467
Due from other Minnesota school districts	270,790
Due from other governmental units	<u>692,553</u>
Total due from other governmental units	<u>\$ 16,971,810</u>

H. Inventories

Inventories are recorded using the consumption method of accounting and consist of purchased food, supplies, and surplus commodities received from the federal government. Food and supply purchases are recorded at invoice cost, computed on a first-in, first-out method. Surplus commodities are stated at standardized costs, as determined by the U.S. Department of Agriculture.

I. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items. Prepaid items are recorded as expenditures/expenses at the time of consumption.

J. Property Taxes

The majority of the District's revenue in the General Fund is determined annually by statutory funding formulas. The total revenue allowed by these formulas is allocated between property taxes and state aids by the Legislature based on education funding priorities.

Generally, property taxes are recognized as revenue by the District in the fiscal year that begins midway through the calendar year in which the tax levy is collectible. To help balance the state budget, the Minnesota Legislature utilizes a tool referred to as the "tax shift," which periodically changes the District's recognition of property tax revenue. The tax shift advance recognizes cash collected for the subsequent year's levy as current year revenue, allowing the state to reduce the amount of aid paid to the District. Currently, the mandated tax shift recognizes \$4,253,742 of the property tax levy collectible in 2023 as revenue to the District in fiscal year 2022–2023. The remaining portion of the taxes collectible in 2023 is recorded as a deferred inflow of resources (property taxes levied for subsequent year).

Property tax levies are certified to the County Auditor in December of each year for collection from taxpayers in May and October of the following calendar year. In Minnesota, counties act as collection agents for all property taxes. The county spreads all levies over taxable property. Such taxes become a lien on property on the following January 1. The county generally remits taxes to the District at periodic intervals as they are collected.

Taxes that remain unpaid are classified as delinquent taxes receivable. Revenue from these delinquent property taxes that is not collected within 60 days of year-end is reported as a deferred inflow of resources (unavailable revenue) in the fund financial statements because it is not known to be available to finance the operations of the District in the current year.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

K. Capital Assets

Capital assets that are purchased or constructed by the District are recorded at historical cost or estimated historical cost. Donated capital assets are recorded at their estimated acquisition value at the date of donation. Lease capital assets are recorded based on the measurement of payments applicable to the lease term. The District defines capital assets as those with an initial, individual cost of \$3,000 or more for assets acquired through June 30, 2015 and \$5,000 or more for assets acquired thereafter, which benefit more than one fiscal year. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. The District does not possess material amounts of infrastructure capital assets, such as sidewalks or parking lots. Such items are considered to be part of the cost of buildings or other improvable property.

Capital assets are reported in the government-wide financial statements, but not in the governmental fund financial statements. Capital assets are depreciated using the straight-line method over their estimated useful lives. Since surplus assets are generally sold for an immaterial amount or scrapped when declared as no longer fit or needed for public school purpose by the District, no salvage value is taken into consideration for depreciation purposes. Useful lives vary from 20 to 50 years for land improvements, buildings and improvements, and 5 to 15 years for equipment. Lease assets are amortized over the term of the lease or over the useful life of the applicable asset class previously described if future ownership is anticipated. Land and construction in progress are not depreciated.

L. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. If material, bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. In the governmental fund financial statements, the face amount of debt issued is reported as other financing sources. Premiums or discounts on debt issuances are reported as other financing sources or uses, respectively, in the current period.

M. Employee Benefits

- 1. Compensated Absences** – Under the terms of certain collectively bargained contracts, eligible employees accrue vacation and sick leave at varying rates. Vacation and sick pay are accrued in the governmental funds to the extent they have been used or otherwise matured prior to year-end. Because teachers are not eligible for vacation pay and amounts accrued to other employees are forfeited if not taken by January 1 of the following year, no long-term vacation liabilities are recorded in the financial statements. Some employee bargaining groups are eligible to be compensated for unused sick leave upon termination subject to certain conditions. Convertible sick leave is recorded as a liability in the government-wide financial statements as it is earned and it becomes probable that it will vest at some point in the future.
- 2. Early Retirement Incentive** – The District provides early retirement incentive benefits to eligible employee groups in accordance with provisions in certain collectively bargained contracts based on years of service and/or minimum age requirements. No individual can receive benefits in excess of one year's salary. Benefits are accrued in the governmental funds as they become due and payable. See the Defined Benefit Pension Plan – District note for further information.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- 3. Post-Employment Healthcare Benefits** – The District provides post-employment healthcare benefits to eligible employee groups in accordance with provisions in certain collectively bargained contracts based on years of service and/or minimum age requirements. For eligible retirees, the District pays health insurance premiums until the retiree reaches age 65 in an amount equal to active employee health insurance premiums. See the Other Post-Employment Benefits (OPEB) Plan note for further information.

For purposes of measuring the net OPEB liability (asset), deferred outflows/inflows of resources, and OPEB expense, information about the fiduciary net position of the District's OPEB Plan and additions to/deductions from the District's fiduciary net position have been determined on the same basis as they are reported by the District. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

- 4. State-Wide Pension Plans** – District employees participate in cost-sharing, multiple-employer defined benefit pension plans administered by the Public Employees Retirement Association (PERA) and the Teachers Retirement Association (TRA), to which the District contributes. See the Defined Benefit Pension Plans – State-Wide note for further information.

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the PERA and the TRA and additions to/deductions from the PERA's and the TRA's fiduciary net positions have been determined on the same basis as they are reported by the PERA and the TRA. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The TRA has a special funding situation created by direct aid contributions made by the state of Minnesota, City of Minneapolis, and Minneapolis School District. The direct aid is a result of the merger of the Minneapolis Teachers Retirement Fund Association into the TRA in 2006. A second direct aid source is from the state of Minnesota for the merger of the Duluth Teachers Retirement Fund Association in 2015.

N. Risk Management and Self-Insurance

- 1. General Insurance** – The District is exposed to various risks of loss related to torts: theft of, damage to, and destruction of assets; errors and omissions; natural disasters; and workers' compensation for which the District carries commercial insurance. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years. There were no reductions in the District's insurance coverage in the current year.
- 2. Self-Insurance** – The District has established two internal service funds to account for and finance its self-insured risk of loss for respective employee dental and health insurance plans. Under these plans, the internal service funds provide coverage to participating employees and their dependents for various dental and healthcare costs as described in the plans.

The District makes premium payments that include both employer and employee contributions to the internal service funds on behalf of program participants based on rates determined by insurance company estimates of monthly claims paid for each coverage class, plus stop-loss health and dental insurance premium costs and administrative service charges. Any excess of the premiums above claims remaining is used to establish a reserve for future claims.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

District claim liabilities are reported when it is probable a loss has occurred and the amount can be reasonably estimated. Liabilities include an amount for claims that have been incurred, but not reported. Because actual claim liabilities depend on complex factors, such as inflation, changes in legal doctrines, and damage awards, the process used in computing a claim liability does not necessarily result in an exact amount. Claim liabilities are evaluated periodically to take into consideration recently settled claims, the frequency of claims, and other economic and social factors.

Changes in the balance of dental claim liabilities for the last two years were as follows:

<u>Year Ended June 30,</u>	<u>Balance – Beginning of Year</u>	<u>Charges and Changes in Estimates</u>	<u>Claim Payments</u>	<u>Balance – End of Year</u>
2022	\$ 17,618	\$ 1,124,861	\$ 1,121,546	\$ 20,933
2023	\$ 20,933	\$ 1,258,820	\$ 1,236,590	\$ 43,163

Changes in the balance of health claim liabilities for the last two years were as follows:

<u>Year Ended June 30,</u>	<u>Balance – Beginning of Year</u>	<u>Charges and Changes in Estimates</u>	<u>Claim Payments</u>	<u>Balance – End of Year</u>
2022	\$ 437,161	\$ 12,160,198	\$ 11,844,962	\$ 752,397
2023	\$ 752,397	\$ 13,555,207	\$ 13,671,630	\$ 635,974

O. Deferred Outflows/Inflows of Resources

In addition to assets and liabilities, statements of financial position or balance sheets will sometimes report separate sections for deferred outflows or inflows of resources. These separate financial statement elements represent a consumption or acquisition of net assets that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) or an inflow of financial resources (revenue) until then.

The District reports deferred outflows and inflows of resources related to pensions and OPEB in the government-wide Statement of Net Position. These deferred outflows and inflows result from differences between expected and actual economic experience, changes in actuarial assumptions, net collective difference between projected and actual investment earnings, changes in proportion, and contributions to the plan subsequent to the measurement date and before the end of the reporting period. These amounts are deferred and amortized as required under pension and OPEB standards.

Property taxes levied for subsequent years, which represents property taxes received or reported as a receivable before the period for which the taxes are levied, are reported as a deferred inflow of resources in both the government-wide Statement of Net Position and the governmental funds Balance Sheet. Property taxes levied for subsequent years are deferred and recognized as an inflow of resources in the government-wide financial statements in the year for which they are levied, and in the governmental fund financial statements during the year for which they are levied, if available.

The District reports deferred inflows of resources related to lease receivables, which requires lessors to recognize deferred inflows of resources to correspond to lease receivables. These amounts are deferred and amortized in a systematic and rationale manner over the term of the lease.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Unavailable revenue from property taxes arises under a modified accrual basis of accounting and is reported only in the governmental funds Balance Sheet. Delinquent property taxes not collected within 60 days of year-end are deferred and recognized as an inflow of resources in the governmental funds in the period the amounts become available.

P. Net Position

In the government-wide, internal service funds, and fiduciary funds financial statements, net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources. Net position is displayed in three components:

- **Net Investment in Capital Assets** – Consists of capital assets, net of accumulated depreciation/amortization, reduced by any outstanding debt attributable to acquire capital assets.
- **Restricted Net Position** – Consists of net position restricted when there are limitations imposed on its use through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.
- **Unrestricted Net Position** – All other net position that does not meet the definition of “restricted” or “net investment in capital assets.”

The District applies restricted resources first when an expense is incurred for which both restricted and unrestricted resources are available.

Q. Fund Balance Classifications

In the fund financial statements, governmental funds report fund balance in classifications that disclose constraints for which amounts in those funds can be spent. These classifications are as follows:

- **Nonspendable** – Consists of amounts that are not in spendable form, such as prepaid items, inventory, and other long-term assets.
- **Restricted** – Consists of amounts related to externally imposed constraints established by creditors, grantors, or contributors; or constraints imposed by state statutory provisions.
- **Committed** – Consists of internally imposed constraints that are established by resolution of the School Board. Those committed amounts cannot be used for any other purpose unless the School Board removes or changes the specified use by taking the same type of action it employed to previously commit those amounts.
- **Assigned** – Consists of internally imposed constraints. These constraints consist of amounts intended to be used by the District for specific purposes, but do not meet the criteria to be classified as restricted or committed. In governmental funds, assigned amounts represent intended uses established by the governing body itself or by an official to which the governing body delegates the authority. Pursuant to School Board resolution, the District’s superintendent and executive director of business services are authorized to establish assignments of fund balance.
- **Unassigned** – The residual classification for the General Fund, which also reflects negative residual amounts in other funds.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

When both restricted and unrestricted resources are available for use, it is the District's policy to first use restricted resources, and then use unrestricted resources as needed.

When committed, assigned, or unassigned resources are available for use, it is the District's policy to use resources in the following order: 1) committed, 2) assigned, and 3) unassigned.

R. Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements during the reporting period. Actual results could differ from those estimates.

S. Prior Period Comparative Financial Information/Reclassification

The basic financial statements include certain prior year partial comparative information in total, but not at the level of detail required for a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the District's financial statements for the prior year, from which the summarized information was derived. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

NOTE 2 – DEPOSITS AND INVESTMENTS

A. Components of Cash and Investments

Cash and investments at year-end consist of the following:

Deposits	\$	11,475,079
Investments		84,824,177
Cash on hand		<u>6,116</u>
Total	\$	<u><u>96,305,372</u></u>

Cash and investments are presented in the financial statements as follows:

Statement of Net Position		
Cash and temporary investments	\$	80,423,356
Statement of Fiduciary Net Position		
Post-Employment Benefits Trust Fund		
Cash and temporary investments and investments, at fair value		<u>15,882,016</u>
Total	\$	<u><u>96,305,372</u></u>

B. Deposits

In accordance with applicable Minnesota Statutes, the District maintains deposits at depository banks authorized by the School Board, including checking accounts, savings accounts, and nonnegotiable certificates of deposit.

The following is considered the most significant risk associated with deposits:

Custodial Credit Risk – In the case of deposits, this is the risk that in the event of a bank failure, the District’s deposits may be lost.

Minnesota Statutes require that all deposits be protected by federal deposit insurance, corporate surety bond, or collateral. The market value of collateral pledged must equal 110 percent of the deposits not covered by federal deposit insurance or corporate surety bonds. Authorized collateral includes treasury bills, notes, and bonds; issues of U.S. government agencies; general obligations rated “A” or better; revenue obligations rated “AA” or better; irrevocable standard letters of credit issued by the Federal Home Loan Bank; and certificates of deposit. Minnesota Statutes require that securities pledged as collateral be held in safekeeping in a restricted account at the Federal Reserve Bank or in an account at a trust department of a commercial bank or other financial institution that is not owned or controlled by the financial institution furnishing the collateral. The District’s deposit policies do not further limit depository choices.

At year-end, the carrying amount and bank balance of the District’s deposits was \$11,475,079. At year-end, all deposits were fully covered by federal deposit insurance, surety bonds, or by collateral held by the District’s agent in the District’s name.

N/A – Not Applicable

The Minnesota Trust (MNTrust) Investment Shares Portfolio, MNTrust Term Series, MNTrust Full Flex, MNTrust Limited Term Duration, and the Minnesota School District Liquid Asset Fund (MSDLAF) Liquid Class are external investment pools not registered with the Securities and Exchange Commission regulated by Minnesota Statutes. The District's investments in these investment pools are measured at the net asset value per share provided by the pool, which is based on an amortized cost method that approximates fair value. For the MSDLAF Liquid Class investment pool, there are no unfunded commitments, redemption frequency is daily, and there is no redemption notice required. MNTrust Term Series are intended to be held until maturity; withdrawal prior to maturity will require seven days' notice of redemption and will likely carry a penalty, which could be substantial in that it would be intended to allow the MNTrust Term Series to recoup any associated penalties, charges, losses, or other costs associated with the early redemption of the investments therein. MNTrust Limited Term Duration must be deposited for a minimum of 30 calendar days. MNTrust Full Flex Term Series offer weekly liquidity with a one-day notice of withdrawal.

NOTE 2 – DEPOSITS AND INVESTMENTS (CONTINUED)

Investments are subject to various risks, the following of which are considered the most significant:

Custodial Credit Risk – For investments, this is the risk that in the event of a failure of the counterparty to an investment transaction (typically a broker-dealer) the District would not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Although the District’s investment policies do not directly address custodial credit risk, it typically limits its exposure by purchasing insured or registered investments, or by the control of who holds the securities.

Credit Risk – This is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Minnesota Statutes limit the District’s investments to direct obligations or obligations guaranteed by the United States or its agencies; shares of investment companies registered under the Federal Investment Company Act of 1940 that receive the highest credit rating, are rated in one of the two highest rating categories by a statistical rating agency, and all of the investments have a final maturity of 13 months or less; general obligations rated “A” or better; revenue obligations rated “AA” or better; general obligations of the Minnesota Housing Finance Agency rated “A” or better; bankers’ acceptances of United States banks eligible for purchase by the Federal Reserve System; commercial paper issued by United States corporations or their Canadian subsidiaries, rated of the highest quality category by at least two nationally recognized rating agencies, and maturing in 270 days or less; Guaranteed Investment Contracts guaranteed by a United States commercial bank, domestic branch of a foreign bank, or a United States insurance company, and with a credit quality in one of the top two highest categories; repurchase or reverse purchase agreements and securities lending agreements with financial institutions qualified as a “depository” by the government entity, with banks that are members of the Federal Reserve System with capitalization exceeding \$10,000,000; that are a primary reporting dealer in U.S. government securities to the Federal Reserve Bank of New York; or certain Minnesota securities broker-dealers. For assets held in the Post-Employment Benefits Trust Fund, the investment options available to the District are expanded to include the investment types specified in Minnesota Statutes § 356A.06, Subd. 7. The District’s investment policies do not further restrict investing in specific financial instruments.

Concentration Risk – This is the risk associated with investing a significant portion of the District’s investments (considered 5.0 percent or more) in the securities of a single issuer, excluding U.S. guaranteed investments (such as treasuries), investment pools and mutual funds. The District’s investment policies do not address concentration risk.

Interest Rate Risk – This is the risk of potential variability in the fair value of fixed rate investments resulting from changes in interest rates (the longer the period for which an interest rate is fixed, the greater the risk). The District’s investment policies do not limit the maturities of investments; however, when purchasing investments, the District considers such things as interest rates and cash flow needs.

NOTE 3 – LEASE RECEIVABLE

The District has entered into a lease receivable agreement for cell tower rental space on district property. The lease is reported using an incremental rate increase each year per the agreement with a final maturity through 2039. During the current year, the District received principal and interest payments of \$77,815 on this lease.

NOTE 5 – LONG-TERM LIABILITIES

A. General Obligation Bonds Payable

The District currently has the following general obligation bonds payable outstanding:

Issue	Issue Date	Interest Rate	Face/Par Value	Final Maturity	Principal Outstanding
General obligation bonds payable					
Alternative facilities bonds	04/07/2015	3.000%	\$ 10,310,000	02/01/2028	\$ 10,310,000
Facilities maintenance bonds	02/22/2017	3.000–4.000%	\$ 10,940,000	02/01/2032	10,940,000
Facilities maintenance bonds	03/21/2019	2.875–4.000%	\$ 9,995,000	02/01/2036	9,995,000
School building bonds	07/18/2019	3.000–5.000%	\$ 37,765,000	02/01/2040	35,725,000
Facilities maintenance and refunding bonds	11/19/2020	2.000–4.000%	\$ 26,285,000	02/01/2041	20,555,000
Facilities maintenance and capital facilities bonds	03/23/2023	4.000–5.000%	\$ 15,010,000	02/01/3036	15,010,000
Total general obligation bonds payable					<u>\$ 102,535,000</u>

These bonds were issued to finance acquisition, construction, and/or improvements of capital facilities, or to finance the retirement (refunding) of prior bond issues. Assets of the Debt Service Fund, together with scheduled future ad valorem tax levies, are dedicated for the retirement of these bonds. The annual future debt service levies authorized equal 105 percent of the principal and interest due each year. These levies are subject to reduction if fund balance amounts exceed limitations imposed by Minnesota law.

B. Finance Purchases Payable

On September 17, 2012, the District entered a master debt agreement with Apple, Inc. for iPads and MacBooks. The District acquires equipment from time to time under this master agreement as needed. Each debt “schedule” added under this master debt agreement adds equipment to the debt and carries its own debt term and payment schedule. The debt schedules have interest rates ranging from zero percent to 0.99 percent and mature in fiscal year 2026. Upon payment in full of all scheduled debt payments, the lessor’s (Apple, Inc.) interest in the equipment is transferred to the District, free and clear of any right or interest of Apple, Inc. The General Fund will be used to liquidate this liability. If the District does not pay the debt payments on the date which payments are due, the District shall pay a charge at the rate of 12.00 percent per annum or the highest lawful rate, whichever is less, from such due date until paid. If the District breaches any term of this agreement, the debtor may require that the District return the equipment and pay any and all amounts, which may then be due and payable under the debt, plus all debt payments remaining through the end of the then current fiscal period.

The assets acquired through this finance purchase were not capitalized as individual asset amounts do not meet the capitalization threshold requirements.

C. Lease Liability

The District has obtained the use of certain equipment and building space through a lease financing agreement. The total amount of underlying lease assets by major classes and the related accumulated amortization is presented in Note 4 to the basic financial statements. Annual principal and interest on these agreements will be paid from the General Fund and Community Service Special Revenue Fund. The agreement is secured by the original property. The lessor also may repossess the property and seek full recovery of the losses upon default. As of year-end, these lease agreements were terminated.

NOTE 5 – LONG-TERM LIABILITIES (CONTINUED)

D. Other Long-Term Liabilities

The District offers a number of benefits to its employees, including: compensated absences, pensions, and OPEB; the details of which are discussed elsewhere in these notes. Such benefits are financed primarily from the General Fund or a trust fund established by the District to finance the OPEB liability.

District employees participate in three defined benefit pension plans, including two state-wide, cost-sharing, multiple-employer plans administered by the PERA and the TRA, and one single-employer plan administered by the District. The net pension liabilities, deferred outflows and inflows of resources, and pension expense reported for these plans as of and for the current year ended, are as follows:

Pension Plans	Net Pension Liabilities	Deferred Outflows of Resources	Deferred Inflows of Resources	Pension Expense
State-wide, multiple-employer – PERA	\$ 26,936,033	\$ 9,094,311	\$ 1,649,026	\$ 3,206,723

B. Governmental Fund Balance Classifications

The following is a breakdown of equity components of governmental funds, which are defined earlier in the report. When applicable, certain restrictions, which have an accumulated deficit balance at June 30, are included in unassigned fund balance in the District’s financial statements in accordance with accounting principles generally accepted in the United States of America. A description of these deficit balance restrictions is included herein since the District has specific authority to future resources for such deficits.

At year-end, a summary of the District’s governmental fund balance classifications are as follows:

C. Minimum Unassigned Fund Balance Policy

The School Board has formally adopted a fund balance policy regarding the minimum unassigned fund balance for the General Fund. The policy establishes the District will strive to maintain a minimum unassigned General Fund balance of 8.0 percent of annual budgeted expenditures. At June 30, 2023, the unassigned fund balance of the General Fund was 13.9 percent of fiscal 2023 expenditures related to the unassigned fund balance category.

NOTE 7 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE

A. Plan Descriptions

The District participates in the following cost-sharing, multiple-employer defined benefit pension plans administered by the PERA and the TRA. The PERA's and the TRA's defined benefit pension plans are established and administered in accordance with Minnesota Statutes. The PERA's and the TRA's defined benefit pension plans are tax qualified plans under Section 401(a) of the Internal Revenue Code (IRC).

1. General Employees Retirement Fund (GERF)

The PERA's defined benefit pension plans are established and administered in accordance with Minnesota Statutes, Chapters 353 and 356.

Certain full-time and part-time employees of the District other than teachers are covered by the GERF. GERF members belong to the Coordinated Plan. Coordinated Plan members are covered by Social Security.

2. Teachers Retirement Association (TRA)

The TRA administers a Basic Plan (without Social Security coverage) and a Coordinated Plan (with Social Security coverage) in accordance with Minnesota Statutes, Chapters 354 and 356. The TRA is a separate statutory entity, administered by a Board of Trustees. The Board of Trustees consists of four active members, one retired member, and three statutory officials.

Educators employed in Minnesota's public elementary and secondary schools, charter schools, and certain other TRA-covered educational institutions maintained by the state are required to be TRA members (except those employed by St. Paul Public Schools or Minnesota State Colleges and Universities (MnSCU)). Educators first hired by MnSCU may elect either TRA coverage or coverage through the Defined Contribution Plan administered by Minnesota State.

B. Benefits Provided

The PERA and the TRA provide retirement, disability, and death benefits. Benefit provisions are established by state statutes and can only be modified by the State Legislature.

The benefit provisions stated in the following paragraphs of this section are current provisions and apply to active plan participants. Vested, terminated employees who are entitled to benefits, but are not receiving them yet, are bound by the provisions in effect at the time they last terminated their public service.

1. GERF Benefits

Benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for the PERA's Coordinated Plan members. Members hired prior to July 1, 1989, receive the higher of Method 1 or Method 2 formulas. Only Method 2 is used for members hired after June 30, 1989. Under Method 1, the accrual rate for Coordinated Plan members is 1.2 percent for each of the first 10 years of service and 1.7 percent for each additional year. Under Method 2, the accrual rate for Coordinated Plan members is 1.7 percent for all years of service. For members hired prior to July 1, 1989, a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at age 66.

NOTE 7 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

Benefit increases are provided to benefit recipients each January. The post-retirement increase is equal to 50.0 percent of the cost of living adjustment announced by the Social Security Administration, with a minimum increase of at least 1.0 percent and a maximum of 1.5 percent. Recipients that have been receiving the annuity or benefit for at least a full year as of the June 30 before the effective date of the increase, will receive the full increase. For recipients receiving the annuity or benefit for at least one month, but less than a full year as of the June 30 before the effective date of the increase, will receive a reduced prorated increase. For members retiring on January 1, 2025 or later, the increase will be delayed until normal retirement age (age 65 if hired prior to July 1, 1989, or age 66 for individuals hired on or after July 1, 1989). Members retiring under Rule of 90 are exempt from the delay to normal retirement.

2. TRA Benefits

The TRA provides retirement benefits as well as disability benefits to members, and benefits to survivors upon death of eligible members. Benefits are established by Minnesota Statutes and vest after three years of service credit. The defined retirement benefits are based on a member’s highest average salary for any five consecutive years of allowable service, age, and a formula multiplier based on years of credit at termination of service.

Two methods are used to compute benefits for the TRA’s Coordinated and Basic Plan members. Members first employed before July 1, 1989, receive the greater of the Tier I or Tier II benefits as described.

Tier I Benefits

Step-Rate Formula	Percentage per Year
Basic Plan	
First 10 years of service	2.2 %
All years after	2.7 %
Coordinated Plan	
First 10 years if service years are up to July 1, 2006	1.2 %
First 10 years if service years are July 1, 2006 or after	1.4 %
All other years of service if service years are up to July 1, 2006	1.7 %
All other years of service if service years are July 1, 2006 or after	1.9 %

With these provisions:

- (a) Normal retirement age is 65 with less than 30 years of allowable service and age 62 with 30 or more years of allowable service.
- (b) Three percent per year early retirement reduction factor for all years under normal retirement age.
- (c) Unreduced benefits for early retirement under a Rule of 90 (age plus allowable service equals 90 or more).

NOTE 7 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

Tier II Benefits

For years of service prior to July 1, 2006, a level formula of 1.7 percent per year for Coordinated Plan members and 2.7 percent per year for Basic Plan members applies. For years of service July 1, 2006 and after, a level formula of 1.9 percent per year for Coordinated Plan members and 2.7 percent per year for Basic Plan members applies. Beginning July 1, 2015, the early retirement reduction factors are based on rates established under Minnesota Statutes. Smaller reductions, more favorable to the member, will be applied to individuals who reach age 62 and have 30 years or more of service credit.

Members first employed after June 30, 1989, receive only the Tier II benefit calculation with a normal retirement age that is their retirement age for full Social Security retirement benefits, but not to exceed age 66.

Six different types of annuities are available to members upon retirement. The No Refund Life Plan is a lifetime annuity that ceases upon the death of the retiree—no survivor annuity is payable. A retiring member may also choose to provide survivor benefits to a designated beneficiary(ies) by selecting one of the five plans that have survivorship features. Vested members may also leave their contributions in the TRA Fund upon termination of service in order to qualify for a deferred annuity at retirement age. Any member terminating service is eligible for a refund of their employee contributions plus interest.

The benefit provisions stated apply to active plan participants. Vested, terminated employees who are entitled to benefits, but not yet receiving them, are bound by the plan provisions in effect at the time they last terminated their public service.

C. Contributions

Minnesota Statutes set the rates for employer and employee contributions. Contribution rates can only be modified by the State Legislature.

1. GERF Contributions

Minnesota Statutes, Chapter 353 sets the rates for employer and employee contributions. Coordinated Plan members were required to contribute 6.5 percent of their annual covered salary in fiscal year 2023 and the District was required to contribute 7.5 percent for Coordinated Plan members. The District’s contributions to the GERF for the year ended June 30, 2023, were \$2,079,877. The District’s contributions were equal to the required contributions as set by state statutes.

2. TRA Contributions

Minnesota Statutes, Chapter 354 sets the rates for employer and employee contributions. Rates for each fiscal year were:

	Year Ended June 30,					
	2021		2022		2023	
	Employee	Employer	Employee	Employer	Employee	Employer
Basic Plan	11.00 %	12.13 %	11.00 %	12.34 %	11.00 %	12.55 %
Coordinated Plan	7.50 %	8.13 %	7.50 %	8.34 %	7.50 %	8.55 %

The District’s contributions to the TRA for the plan’s fiscal year ended June 30, 2023, were \$5,416,811. The District’s contributions were equal to the required contributions for each year as set by state statutes.

NOTE 7 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

The following is a reconciliation of employer contributions in the TRA’s Annual Comprehensive Financial Report Statement of Changes in Fiduciary Net Position to the employer contributions used in the Schedule of Employer and Nonemployer Pension Allocations:

	<i>in thousands</i>
Employer contributions reported in the TRA’s Annual Comprehensive Financial Report Statement of Changes in Fiduciary Net Position	\$ 482,679
Add employer contributions not related to future contribution efforts	(2,178)
Deduct the TRA’s contributions not included in allocation	<u>(572)</u>
Total employer contributions	479,929
Total nonemployer contributions	<u>35,590</u>
Total contributions reported in the Schedule of Employer and Nonemployer Allocations	<u>\$ 515,519</u>

Amounts reported in the allocation schedules may not precisely agree with financial statement amounts or actuarial valuations, due to the number of decimal places used in the allocations. The TRA has rounded percentage amounts to the nearest ten thousandths.

D. Pension Costs

1. GERF Pension Costs

At June 30, 2023, the District reported a liability of \$26,936,033 for its proportionate share of the General Employees Fund’s net pension liability. The District’s net pension liability reflected a reduction due to the state of Minnesota’s contribution of \$16 million. The state of Minnesota is considered a nonemployer contributing entity and the state’s contribution meets the definition of a special funding situation. The state of Minnesota’s proportionate share of the net pension liability associated with the District totaled \$789,750. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District’s proportionate share of the net pension liability was based on the District’s contributions received by the PERA during the measurement period for employer payroll paid dates from July 1, 2021 through June 30, 2022, relative to the total employer contributions received from all of the PERA’s participating employers. The District’s proportionate share was 0.3401 percent at the end of the measurement period and 0.3402 percent for the beginning of the period.

District’s proportionate share of the net pension liability	\$ 26,936,033
State’s proportionate share of the net pension liability associated with the District	\$ 789,750

For the year ended June 30, 2023, the District recognized pension expense of \$3,088,716 for its proportionate share of the GERF’s pension expense. In addition, the District recognized an additional \$118,007 as pension expense (and grant revenue) for its proportionate share of the state of Minnesota’s contribution of \$16 million to the GERF.

NOTE 7 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

At June 30, 2023, the District reported its proportionate share of the GERF’s deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual economic experience	\$ 224,990	\$ 290,933
Changes in actuarial assumptions	6,097,851	122,826
Net collective difference between projected and actual investment earnings	586,545	–
Changes in proportion	105,048	1,235,267
District’s contributions to the GERF subsequent to the measurement date	<u>2,079,877</u>	<u>–</u>
Total	<u>\$ 9,094,311</u>	<u>\$ 1,649,026</u>

The \$2,079,877 reported as deferred outflows of resources related to pensions resulting from district contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2024. Other amounts reported as deferred outflows and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ending June 30,</u>	<u>Pension Expense Amount</u>
2024	\$ 1,888,298
2025	\$ 1,901,614
2026	\$ (860,469)
2027	\$ 2,435,965

2. TRA Pension Costs

At June 30, 2023, the District reported a liability of \$80,146,777 for its proportionate share of the TRA’s net pension liability. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District’s proportion of the net pension liability was based on the District’s contributions to the TRA in relation to total system contributions, including direct aid from the state of Minnesota, City of Minneapolis, and Minneapolis School District. The District’s proportionate share was 1.0009 percent at the end of the measurement period and 0.9510 percent for the beginning of the period.

The pension liability amount reflected a reduction due to direct aid provided to the TRA. The amount recognized by the District as its proportionate share of the net pension liability, the direct aid, and total portion of the net pension liability that was associated with the District were as follows:

District’s proportionate share of the net pension liability	\$ 80,146,777
State’s proportionate share of the net pension liability associated with the District	\$ 5,943,452

For the year ended June 30, 2023, the District recognized a negative pension expense of \$18,647,499. It also recognized \$817,243 as an increase to pension expense for the support provided by direct aid.

NOTE 7 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

At June 30, 2023, the District had deferred resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual economic experience	\$ 1,143,069	\$ 672,145
Changes in actuarial assumptions	12,199,773	16,818,323
Net collective difference between projected and actual investment earnings on pension plan investments	3,639,247	–
Changes in proportion	2,103,455	2,158,743
District’s contributions to the TRA subsequent to the measurement date	<u>5,416,811</u>	<u>–</u>
Total	<u>\$ 24,502,355</u>	<u>\$ 19,649,211</u>

A total of \$5,416,811 reported as deferred outflows of resources related to pensions resulting from district contributions to the TRA subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2024. Other deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

<u>Year Ending June 30,</u>	<u>Pension Expense Amount</u>
2024	\$ (15,069,725)
2025	\$ 2,286,763
2026	\$ 1,323,816
2027	\$ 10,475,007
2028	\$ 420,472

E. Long-Term Expected Return on Investment

The State Board of Investment, which manages the investments of the PERA and the TRA, prepares an analysis of the reasonableness on a regular basis of the long-term expected rate of return using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages.

The target allocation and best-estimates of geometric real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic equity	33.50 %	5.10 %
International equity	16.50	5.30 %
Private markets	25.00	5.90 %
Fixed income	<u>25.00</u>	0.75 %
Total	<u>100.00 %</u>	

NOTE 7 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

F. Actuarial Methods and Assumptions

The total pension liability in the June 30, 2022 actuarial valuation was determined using an individual entry-age normal actuarial cost method and the following actuarial assumptions:

Assumptions	GERF	TRA
Inflation	2.25%	2.50%
Wage growth rate		2.85% before July 1, 2028, and 3.25% thereafter
Projected salary increase	3.00%	2.85% to 8.85% before July 1, 2028, and 3.25% to 9.25% thereafter
Investment rate of return	6.50%	7.00%

1. GERF

The long-term rate of return on pension plan investments used in the determination of the total liability is 6.50 percent. This assumption is based on a review of inflation and investments return assumptions from a number of national investment consulting firms. The review provided a range of return investment return rates deemed to be reasonable by the actuary. An investment return of 6.50 percent was deemed to be within that range of reasonableness for financial reporting purposes.

Inflation is assumed to be 2.25 percent for the GERF Plan. Benefit increases after retirement are assumed to be 1.25 percent for the GERF Plan.

Salary growth assumptions in the GERF Plan range in annual increments from 10.25 percent after one year of service to 3.00 percent after 27 years of service.

Mortality rates for the GERF Plan are based on the Pub-2010 General Employee Mortality Table. The table is adjusted slightly to fit the PERA’s experience.

Actuarial assumptions for the GERF Plan are reviewed every four years. The most recent four-year experience study for the GERF Plan was completed in 2019. The assumption changes were adopted by the Board and became effective with the July 1, 2020 actuarial valuation.

2. TRA

Salary increases were based on a service-related table.

Mortality Assumptions Used in Valuation of Total Pension Liability	
Pre-retirement	RP-2014 White Collar Employee Table, male rates set back five years and female rates set back seven years. Generational projection uses the MP-2015 Scale.
Post-retirement	RP-2014 White Collar Annuitant Table, male and female rates set back three years, with further adjustments of the rates. Generational projection uses the MP-2015 Scale.
Post-disability	RP-2014 Disabled Retiree Mortality Table, without adjustment.

Cost of living benefit increases after retirement for retirees are assumed to be 1.00 percent for January 2019 through January 2023, then increasing by 0.10 percent each year, up to 1.50 percent annually.

Actuarial assumptions for the TRA Plan were based on the results of actuarial experience studies. The most recent experience study in the TRA Plan was completed in 2019, with economic assumptions updated in 2019.

NOTE 7 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

The following changes in actuarial assumptions occurred in 2022:

1. GERF

CHANGES IN ACTUARIAL ASSUMPTIONS

- The mortality improvement scale was changed from Scale MP-2020 to Scale MP-2021.

2. TRA

CHANGES IN ACTUARIAL ASSUMPTIONS

- None.

G. Discount Rate

1. GERF

The discount rate used to measure the total pension liability in 2022 was 6.50 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at rates set in Minnesota Statutes. Based on these assumptions, the fiduciary net position of the GERF was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

2. TRA

The discount rate used to measure the total pension liability was 7.00 percent. There was no change in the discount rate since the prior measurement date. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the fiscal year 2022 contribution rate, contributions from school districts will be made at contractually required rates (actuarially determined), and contributions from the state will be made at current statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was not projected to be depleted and, as a result, the Municipal Bond Index Rate was not used in the determination of the Single Equivalent Interest Rate.

NOTE 7 – DEFINED BENEFIT PENSION PLANS – STATE-WIDE (CONTINUED)

H. Pension Liability Sensitivity

The following table presents the District's proportionate share of the net pension liability for all plans it participates in, calculated using the discount rate disclosed on the preceding page, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate 1 percentage point lower or 1 percentage point higher than the current discount rate:

	<u>1% Decrease in Discount Rate</u>	<u>Current Discount Rate</u>	<u>1% Increase in Discount Rate</u>
GERF discount rate	5.50%	6.50%	7.50%
District's proportionate share of the GERF net pension liability	\$ 42,546,874	\$ 26,936,033	\$ 14,132,733
TRA discount rate	6.00%	7.00%	8.00%
District's proportionate share of the TRA net pension liability	\$ 126,347,030	\$ 80,146,777	\$ 42,276,975

I. Pension Plan Fiduciary Net Position

Detailed information about the plan's fiduciary net position is available in a separately-issued PERA financial report that includes financial statements and required supplementary information. That report may be obtained on the internet at www.mnpera.org.

Detailed information about the plan's fiduciary net position is available in a separately-issued TRA financial report. That report can be obtained at www.minnesotatra.org, by writing to the TRA at 60 Empire Drive, Suite 400, St. Paul, MN, 55103-4000; or by calling 651-296-2409 or 800-657-3669.

NOTE 8 – DEFINED BENEFIT PENSION PLAN – DISTRICT

A. Plan Description

The District provides pension benefits to certain eligible employees through its Pension Benefits Plan, a single-employer defined benefit plan administered by the District. All pension benefits are based on contractual agreements with employee groups. Eligibility for these benefits is based on years of service and/or minimum age requirements. These contractual agreements do not include any specific contribution or funding requirements. The plan does not issue a publicly available financial report.

These benefits are summarized as follows:

Administrative Supervisory Technical (AST) Employees Pension Benefits – AST employees hired before July 1, 1998 are eligible to receive an additional retirement incentive benefit. AST employees accumulate four days of credit for each full year of service to the District. The benefit is based on an employee's rate of pay, less any cumulative employer tax sheltered annuity contributions, with a limitation on total benefits to an individual of 50 percent of base annual salary. Benefits are paid out in a lump sum of 60 percent to a Voluntary Employees' Beneficiary Association (VEBA) account (OPEB) and 40 percent to a 403(b) account (pension).

NOTE 8 – DEFINED BENEFIT PENSION PLAN – DISTRICT (CONTINUED)

Principal Pension Benefits – Principals hired before July 1, 2016 are eligible to receive an additional retirement incentive benefit. Principals accumulate four days of credit for each full year of service to the District. The benefit is based on an employee’s rate of pay, less any cumulative employer tax sheltered annuity contributions, with a limitation on total benefits to an individual of 50 percent of base annual salary. Benefits are paid out in a lump sum to a 403(b) account.

Eden Prairie Supervisors and Specialists (EPSS) Pension Benefits – EPSS employees hired before July 1, 1999 are eligible to receive an additional retirement incentive benefit. EPSS employees accumulate one day of credit for each full year of service to the District from July 1, 1989. For employees who have completed at least 18 years of continuous service with the District and are at least age 55, the benefit increases to the maximum of one day of credit for each full year of service to the District from July 1, 1989 or 30 days. The benefit is based on an employee’s rate of pay, less any cumulative employer tax sheltered annuity contributions, with a limitation on total benefits to an individual of 50 percent of base annual salary. Benefits are paid out in a lump sum of 50 percent to a Voluntary Employees’ Beneficiary Association (VEBA) account (OPEB) and 50 percent to a 403(b) account (pension).

B. Contributions and Funding Policy

The required contribution is based on projected pay-as-you-go financing requirements, with additional amounts to prefund benefits as determined periodically by the District. The District has not established a trust fund to finance these pension benefits.

C. Membership

Membership in the plan consisted of the following as of the latest actuarial valuation:

Retirees and beneficiaries receiving benefits	1
Active plan members	<u>8</u>
Total members	<u><u>9</u></u>

D. Actuarial Methods and Assumptions

The total pension liability was determined by an actuarial valuation date of July 1, 2022, and a measurement date as of June 30, 2023, using the entry-age method, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Discount rate	3.90%
20-year municipal bond yield	3.90%
Inflation rate	2.50%
Salary increases	Service graded table

Mortality rates were based on the Pub-2010 Public Retirement Plans Headcount-Weighted Mortality Tables (General, Teachers) with MP-2021 Generational Improvement Scale. The actuarial assumptions used in the latest valuation were based on those used to value pension liabilities for Minnesota school district employees. The state pension plans base their assumptions on periodic experience studies.

E. Discount Rate

The discount rate used to measure the total pension liability was 3.90 percent. The District discount rate used in the prior measurement date was 3.80 percent. Since the plan is not funded, the discount rate is equal to the 20-year municipal bond rate, which was set by considering published rate information for 20-year high quality, tax-exempt, general obligation municipal bonds, as of the measurement date.

NOTE 8 – DEFINED BENEFIT PENSION PLAN – DISTRICT (CONTINUED)

F. Changes in the Total Pension Liability

	<u>Total Pension Liability</u>
Beginning balance – July 1, 2022	\$ 369,063
Changes for the year	
Service cost	13,833
Interest	14,046
Assumption changes	(1,908)
Plan changes	(38)
Difference between expected and actual experience	(52,795)
Benefit payments	(26,778)
Total net changes	<u>(53,640)</u>
Ending balance – June 30, 2023	<u>\$ 315,423</u>

Assumption changes since the prior measurement date include the following:

- The discount rate was changed from 3.80 percent to 3.90 percent.
- The mortality tables were updated from the Pub-2010 Public Retirement Plans Headcount-Weighted Mortality Tables (General, Teachers) with MP-2019 Generational Improvement Scale to the Pub-2010 Public Retirement Plans Headcount-Weighted Mortality Tables (General, Teachers) with MP-2021 Generational Improvement Scale.
- The salary increase rates for nonteachers were updated to reflect the latest experience study.
- The withdrawal rates were updated to reflect the latest experience study.

Plan changes since the prior measurement date include the following:

- The matching contribution increased from \$4,500 to \$5,000 per year for Principals.

G. Total Pension Liability Sensitivity to Discount Rate Changes

The following presents the total pension liability of the District, as well as what the District’s total pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current discount rate:

	<u>1% Decrease in Discount Rate</u>	<u>Current Discount Rate</u>	<u>1% Increase in Discount Rate</u>
Pension discount rate	2.90%	3.90%	4.90%

NOTE 8 – DEFINED BENEFIT PENSION PLAN – DISTRICT (CONTINUED)

H. Pension Expense and Related Deferred Outflows and Deferred Inflows of Resources

For the current year ended, the District recognized pension expense of \$24,436. As of year-end, the District reported deferred outflows of resources and deferred inflows of resources related to this pension plan from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 30,806	\$ 43,995
Changes in actuarial assumptions	8,906	25,954
Total	<u>\$ 39,712</u>	<u>\$ 69,949</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to this pension plan, will be recognized in pension expense as follows:

Year Ending June 30,	Pension Expense Amount
2024	\$ (3,405)
2025	\$ (3,399)
2026	\$ (2,127)
2027	\$ (8,420)
2028	\$ (9,952)

NOTE 9 – OTHER POST-EMPLOYMENT BENEFITS (OPEB) PLAN

A. Plan Description

The District provides post-employment benefits to certain eligible employees through the OPEB Plan, a single-employer defined benefit plan administered by the District. Management of the plan is vested with the School Board of the District. All post-employment benefits are based on contractual agreements with employee groups. Eligibility for these benefits is based on years of service and/or minimum age requirements. These contractual agreements do not include any specific contribution or funding requirements.

The District administers a defined benefit Post-Employment Benefits Trust Fund. The assets of the plan are reported in the District's financial report in the Post-Employment Benefits Trust Fund, established by the District to finance these obligations. The plan assets may be used only for the payment of benefits of the plan, in accordance with the terms of the plan. The plan does not issue a publicly available financial report.

B. Benefits Provided

All retirees of the District upon retirement have the option under state law to continue their medical insurance coverage through the District. For members of certain employee groups, the District pays for all or part of the eligible retiree's premiums for medical insurance from the time of retirement until the employee reaches age 65. Retirees not eligible for these district-paid premium benefits must pay the full district premium rate for their coverage.

NOTE 9 – OTHER POST-EMPLOYMENT BENEFITS (OPEB) PLAN (CONTINUED)

The District is legally required to include any retirees for whom it provides health insurance coverage in the same insurance pool as its active employees until the retiree reaches Medicare eligibility, whether the premiums are paid by the District or the retiree. Consequently, participating retirees are considered to receive a secondary benefit known as an “implicit rate subsidy.” This benefit relates to the assumption that the retiree is receiving a more favorable premium rate than they would otherwise be able to obtain if purchasing insurance on their own, due to being included in the same pool with the District’s younger and statistically healthier active employees.

C. Contributions

The required contribution is based on projected pay-as-you-go financing requirements, with additional amounts to prefund benefits as determined periodically by the District. The District contributes 100 percent of the cost of the negotiated current year premiums for specified coverage levels of eligible retired plan members and their spouses. The District has established the Post-Employment Benefits Trust Fund to finance these obligations. The Post-Employment Benefits Trust Fund reimbursed the General Fund for the actual cost of medical insurance premiums paid for retirees and the implicit rate subsidy for the year ended June 30, 2023.

D. Membership

Membership in the plan consisted of the following as of the latest actuarial valuation:

Retirees and beneficiaries receiving benefits	87
Active plan members	<u>1,328</u>
Total members	<u><u>1,415</u></u>

E. Net OPEB Liability (Asset) of the District

The District’s net OPEB liability (asset) was measured as of June 30, 2023, and the total OPEB liability used to calculate the net OPEB liability (asset) was determined by an actuarial valuation as of July 1, 2022. The components of the net OPEB liability (asset) of the District at year-end were as follows:

Total OPEB liability	\$ 8,792,094
Plan fiduciary net position	<u>(14,656,430)</u>
District’s net OPEB liability (asset)	<u><u>\$ (5,864,336)</u></u>
Plan fiduciary net position as a percentage of the total OPEB liability	<u><u>166.7%</u></u>

F. Actuarial Methods and Assumptions

The total OPEB liability was determined by an actuarial valuation as of July 1, 2022, and a measurement date as of June 30, 2023, using the entry-age method, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Discount rate	6.30%
Expected long-term investment return	6.30% (net of investment expenses)
20-year municipal bond yield	3.90%
Inflation rate	2.50%
Salary increases	Service graded table
Medical trend rate	6.25% grading to 5.00% over 6 years, then to 4.00% over the next 48 years
Dental trend rate	4.00%

NOTE 9 – OTHER POST-EMPLOYMENT BENEFITS (OPEB) PLAN (CONTINUED)

Mortality rates were based on the Pub-2010 Public Retirement Plans Headcount-Weighted Mortality Tables (General, Teachers) with MP-2021 Generational Improvement Scale.

The actuarial assumptions used in the latest valuation were based on those used to value pension liabilities for Minnesota school district employees. The state pension plans base their assumptions on periodic experience studies.

The District's policy in regard to the allocation of invested assets is established and may be amended by the School Board by a majority vote of its members. It is the policy of the School Board to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes allowable under state statutes.

The long-term expected rate of return on OPEB Plan investments was set based on the plan's target investment allocation described below, along with long-term return expectations by asset class. When there is sufficient historical evidence of market outperformance, historical average returns may be considered.

Asset Class	Target Allocation	Long-Term Expected Rate of Return
Domestic equity	43.00 %	7.90 %
Fixed income	37.00	3.90 %
International equity	14.00	7.30 %
Real estate	6.00	8.10 %
Total	<u>100.00 %</u>	6.30 %

G. Rate of Return

For the current year ended, the annual money-weighted rate of return on investments, net of investment expense, was 7.40 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

H. Discount Rate

The discount rate used to measure the total OPEB liability was 6.30 percent. The projection of cash flows used to determine the discount rate was determined by projecting forward the fiduciary net position (assets) as of the valuation date, increasing by the investment return assumption, and reducing by benefit payments in each period until assets are exhausted. Expected benefit payments by year were discounted using the expected asset return assumptions for the years in which the assets were sufficient to pay all benefit payments. Any remaining benefit payments after the trust fund is exhausted are discounted at the 20-year municipal bond rate. The equivalent single rate is the discount rate. The contribution and benefit payment history, as well as the funding policy, have also been considered. The District discount rate used in the prior measurement date was 5.90 percent.

Assumption changes since the prior measurement date include the following:

- The healthcare trend rates were changed to better anticipate short-term and long-term medical increases.
- The mortality table was updated from the Pub-2010 Public Retirement Plans Headcount-Weighted Mortality Tables (General, Teachers) with MP-2019 Generational Improvement Scale to the Pub-2010 Public Retirement Plans Headcount-Weighted Mortality Tables (General, Teachers) with MP-2021 Generational Improvement Scale.
- The salary increase rates for nonteachers were updated to reflect the latest experience study.
- The withdrawal rates were updated to reflect the latest experience study.
- The expected long-term investment return was changed from 5.90 percent to 6.30 percent.
- The discount rate was changed from 5.90 percent to 6.30 percent.

Plan changes since the prior measurement date include the following:

- One additional teacher, who was not valued with a \$50,000 early retirement incentive payment payable to a VEBA at June 30, 2022, received this payment during fiscal year 2023.
- The Classified and Minnesota School Employees Association (MSEA) contracts added an early retirement incentive payment of \$500 for employees who retire after the first semester and \$1,000 for employees who retire at the end of the 2022–2023 school year, both payable to a VEBA upon attaining age 55 with 20 years of service. The increase in liability associated with this plan change also includes a corresponding increase in the implicit rate medical subsidy.

K. OPEB Expense and Related Deferred Outflows of Resources and Deferred Inflows of Resources

For the current year ended, the District recognized negative OPEB expense of \$511,563. As of year-end, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual economic experience	\$ –	\$ 2,411,643
Changes in actuarial assumptions	122,060	203,511
Differences between projected and actual investment earnings on OPEB plan investments	820,975	–
Total	<u>\$ 943,035</u>	<u>\$ 2,615,154</u>

NOTE 9 – OTHER POST-EMPLOYMENT BENEFITS (OPEB) PLAN (CONTINUED)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending June 30,	OPEB Expense Amount
2024	\$ (785,038)
2025	\$ (819,593)
2026	\$ 333,452
2027	\$ (325,797)
2028	\$ (49,509)
Thereafter	\$ (25,634)

NOTE 10 – FLEXIBLE BENEFIT PLAN

The District has a flexible benefit plan, which is classified as a cafeteria plan (the Plan) under § 125 of the IRC. All employee groups of the District are eligible if, and when, the collective bargaining agreement or contract with their group allows eligibility. Eligible employees can elect to participate by contributing pretax dollars withheld from payroll checks to the Plan for healthcare and dependent care benefits. Payments are made from the Plan to participating employees upon submitting a request for reimbursement of eligible expenses actually incurred by the participant.

Before the beginning of the Plan year, which is from January 1 to December 31, each participant designates a total amount of pretax dollars to be contributed to the Plan during the year. At June 30, the District is contingently liable for total contributions to the medical reimbursement portion of the Plan, whether or not such contributions have been made.

All assets of the Plan are held by the District and are administered by an employee of the District. Payments of insurance premiums (health, dental, life, and disability) are made by the District directly to the designated service providers and are accounted for primarily in the District’s General Fund. The medical reimbursement and dependent care activity in the financial statements is accounted for in the General Fund.

All property of the Plan and income attributable to that property is solely the property of the District, subject to the claims of the District’s general creditors. Participants’ rights under the Plan are equal to those of general creditors of the District in an amount equal to the eligible healthcare and dependent care expenses incurred by the participants. The District believes that it is unlikely that it will use the assets to satisfy the claims of general creditors in the future.

NOTE 11 – INTERFUND BALANCES AND TRANSACTIONS

A. Interfund Receivables and Payables

The General Fund had a receivable of \$1,274,529 due from the Post-Employment Benefits Trust Fund at June 30, 2023, to reimburse OPEB payments the General Fund made during the year. Because fiduciary fund activity is not included in the government-wide financial statements, this receivable is included as due from the Post-Employment Benefit Trust Fund in the governmental activities on the Statement of Net Position.

NOTE 11 – INTERFUND BALANCES AND TRANSACTIONS (CONTINUED)

B. Interfund Transfers

The District transferred \$17,485 from the General Fund to the Community Service Special Revenue Fund to help finance various program costs.

Such interfund transfers are reported in the fund financial statements, but are eliminated in the government-wide financial statements.

NOTE 12 – COMMITMENTS AND CONTINGENCIES

A. Federal and State Revenues

Amounts received or receivable from federal and state agencies are subject to agency audit and adjustment. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable fund. The amount, if any, of funds which may be disallowed by the agencies cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

B. Legal Claims

The District has the usual and customary types of miscellaneous legal claims pending at year-end, mostly of a minor nature and usually covered by insurance carried for that purpose. Although the outcomes of these claims are not presently determinable, the District believes that the resolution of these matters will not have a material adverse effect on its financial position.

C. Construction Contracts

At June 30, 2023, the District had commitments totaling \$3,477,510 under various construction contracts for which the work was not yet completed.

D. Purchase Power Commitment

Solar Gardens

During fiscal year 2016, the District entered into five community solar garden subscription agreements. The District is committed to purchasing up to 40 percent of the annual delivered energy of the solar agreement for a period of 25 years from the commercial operation date of January 1, 2018.

During fiscal year 2017, the District entered into five community solar garden subscription agreements. The District is committed to purchasing up to 20 percent of the annual delivered energy of the solar agreement for a period of 25 years from the commercial operation date of January 2019.

During fiscal year 2017, the District entered into five community solar garden subscription agreements. The District is committed to purchasing up to 20 percent of the annual delivered energy of the solar agreement for a period of 25 years from the commercial operation date of February 2019.

NOTE 12 – COMMITMENTS AND CONTINGENCIES (CONTINUED)

Solar Panels

The District has entered into various power purchase agreements to purchase the energy generated by solar panels contributed to the District and installed on various buildings of the District. At June 30, 2023, the equipment capitalized through these agreements is \$3,351,130, with accumulated depreciation of \$769,115.

Future power purchase commitment related to these agreements are as follows:

<u>Year Ending June 30,</u>	<u>Amount</u>

PERA – GENERAL EMPLOYEES RETIREMENT FUND

2022 CHANGES IN ACTUARIAL ASSUMPTIONS

- The mortality improvement scale was changed from Scale MP-2020 to Scale MP-2021.

2021 CHANGES IN ACTUARIAL ASSUMPTIONS

- The investment return and single discount rates were changed from 7.50 percent to 6.50 percent, for financial reporting purposes.
- The mortality improvement scale was changed from Scale MP-2019 to Scale MP-2020.

2020 CHANGES IN PLAN PROVISIONS

- Augmentation for current privatized members was reduced to 2.00 percent for the period July 1, 2020 through December 31, 2023, and zero percent thereafter. Augmentation was eliminated for privatizations occurring after June 30, 2020.

2020 CHANGES IN ACTUARIAL ASSUMPTIONS

- The price inflation assumption was decreased from 2.50 percent to 2.25 percent.
- The payroll growth assumption was decreased from 3.25 percent to 3.00 percent.
- Assumed salary increase rates were changed as recommended in the June 30, 2019 experience study. The net effect is assumed rates that average 0.25 percent less than previous rates.
- Assumed rates of retirement were changed as recommended in the June 30, 2019 experience study. The changes result in more unreduced (normal) retirements and slightly fewer Rule of 90 and early retirements.
- Assumed rates of termination were changed as recommended in the June 30, 2019 experience study. The new rates are based on service and are generally lower than the previous rates for years two through five, and slightly higher thereafter.
- Assumed rates of disability were changed as recommended in the June 30, 2019 experience study. The change results in fewer predicted disability retirements for males and females.
- The base mortality table for healthy annuitants and employees was changed from the RP-2014 Table to the Pub-2010 General Mortality Table, with adjustments. The base mortality table for disabled annuitants was changed from the RP-2014 Disabled Annuitant Mortality Table to the Pub-2010 General/Teacher Disabled Annuitant Mortality Table, with adjustments.
- The mortality improvement scale was changed from MP-2018 to MP-2019.
- The assumed spouse age difference was changed from two years older for females to one year older.
- The assumed number of married male new retirees electing the 100.00 percent joint and survivor option changed from 35.00 percent to 45.00 percent. The assumed number of married female new retirees electing the 100.00 percent joint and survivor option changed from 15.00 percent to 30.00 percent. The corresponding number of married new retirees electing the life annuity option was adjusted accordingly.

PERA – GENERAL EMPLOYEES RETIREMENT FUND (CONTINUED)

2019 CHANGES IN PLAN PROVISIONS

- The employer supplemental contribution was changed prospectively, decreasing from \$31.0 million to \$21.0 million per year. The state's special funding contribution was changed prospectively, requiring \$16.0 million due per year through 2031.

2019 CHANGES IN ACTUARIAL ASSUMPTIONS

- The mortality projection scale was changed from MP-2017 to MP-2018.

2018 CHANGES IN PLAN PROVISIONS

- The augmentation adjustment in early retirement factors is eliminated over a five-year period starting July 1, 2019, resulting in actuarial equivalence after June 30, 2024.
- Interest credited on member contributions decreased from 4.00 percent to 3.00 percent, beginning July 1, 2018.
- Deferred augmentation was changed to zero percent, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply.
- Contribution stabilizer provisions were repealed.
- Post-retirement benefit increases were changed from 1.00 percent per year, with a provision to increase to 2.50 percent upon attainment of 90.00 percent funding ratio, to 50.00 percent of the Social Security Cost of Living Adjustment, not less than 1.00 percent and not more than 1.50 percent, beginning January 1, 2019.
- For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches normal retirement age. Does not apply to Rule of 90 retirees, disability benefit recipients, or survivors.
- Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

2018 CHANGES IN ACTUARIAL ASSUMPTIONS

- The mortality projection scale was changed from MP-2015 to MP-2017.
- The assumed benefit increase was changed from 1.00 percent per year through 2044, and 2.50 percent per year thereafter, to 1.25 percent per year.

2017 CHANGES IN PLAN PROVISIONS

- The state's contribution for the Minneapolis Employees Retirement Fund equals \$16.0 million in 2017 and 2018, and \$6.0 million thereafter.
- The Employer Supplemental Contribution for the Minneapolis Employees Retirement Fund changed from \$21.0 million to \$31.0 million in calendar years 2019 to 2031. The state's contribution changed from \$16.0 million to \$6.0 million in calendar years 2019 to 2031.

2017 CHANGES IN ACTUARIAL ASSUMPTIONS

- The Combined Service Annuity (CSA) loads were changed from 0.80 percent for active members and 60.00 percent for vested and nonvested deferred members. The revised CSA loads are now zero percent for active member liability, 15.00 percent for vested deferred member liability, and 3.00 percent for nonvested deferred member liability.
- The assumed post-retirement benefit increase rate was changed from 1.00 percent per year for all years, to 1.00 percent per year through 2044, and 2.50 percent per year thereafter.

2016 CHANGES IN ACTUARIAL ASSUMPTIONS

- The assumed post-retirement benefit increase rate was changed from 1.00 percent per year through 2035, and 2.50 percent per year thereafter, to 1.00 percent per year for all years.
- The assumed investment return was changed from 7.90 percent to 7.50 percent. The single discount rate was changed from 7.90 percent to 7.50 percent.
- Other assumptions were changed pursuant to the experience study dated June 30, 2015. The assumed future salary increases, payroll growth, and inflation were decreased by 0.25 percent to 3.25 percent for payroll growth, and 2.50 percent for inflation.

2015 CHANGES IN PLAN PROVISIONS

- On January 1, 2015, the Minneapolis Employees Retirement Fund was merged into the General Employees Retirement Fund, which increased the total pension liability by \$1.1 billion and increased the fiduciary plan net position by \$892.0 million. Upon consolidation, state and employer contributions were revised; the state's contribution of \$6.0 million, which meets the special funding situation definition, was due September 2015.

2015 CHANGES IN ACTUARIAL ASSUMPTIONS

- The assumed post-retirement benefit increase rate was changed from 1.00 percent per year through 2030, and 2.50 percent per year thereafter, to 1.00 percent per year through 2035, and 2.50 percent per year thereafter.

2021 CHANGES IN ACTUARIAL ASSUMPTIONS

- The investment return assumption was changed from 7.50 percent to 7.00 percent.

2018 CHANGES IN PLAN PROVISIONS

- The cost of living adjustment (COLA) was reduced from 2.00 percent each January 1 to 1.00 percent, effective January 1, 2019. Beginning January 1, 2024, the COLA will increase 0.10 percent each year until reaching the ultimate rate of 1.50 percent on January 1, 2028.
- Beginning July 1, 2024, eligibility for the first COLA changes to normal retirement age (age 65 to 66, depending on date of birth). However, members who retire under Rule of 90 and members who are at least age 62 with 30 years of service credit, are exempt.
- The COLA trigger provision, which would have increased the COLA to 2.50 percent if the funded ratio was at least 90.00 percent for two consecutive years, was eliminated.
- Augmentation in the early retirement reduction factors is phased out over a five-year period beginning July 1, 2019 and ending June 30, 2024 (this reduces early retirement benefits). Members who retire and are at least age 62 with 30 years of service are exempt.
- Augmentation on deferred benefits will be reduced to zero percent beginning July 1, 2019. Interest payable on refunds to members was reduced from 4.00 percent to 3.00 percent, effective July 1, 2018. Interest due on payments and purchases from members, employers is reduced from 8.50 percent to 7.50 percent, effective July 1, 2018.
- The employer contribution rate is increased each July 1 over the next six years, (7.71 percent in 2018, 7.92 percent in 2019, 8.13 percent in 2020, 8.34 percent in 2021, 8.55 percent in 2022, and 8.75 percent in 2023). In addition, the employee contribution rate will increase from 7.50 percent to 7.75 percent on July 1, 2023. The state provides funding for the higher employer contribution rate through an adjustment in the school aid formula.

2018 CHANGES IN ACTUARIAL ASSUMPTIONS

- The investment return assumption was changed from 8.50 percent to 7.50 percent.
- The single discount rate changed from 5.12 percent to 7.50 percent.

OTHER POST-EMPLOYMENT BENEFITS PLAN

2023 CHANGES IN PLAN PROVISIONS

- One additional teacher, who was not valued with a \$50,000 early retirement incentive payment payable to a VEBA at June 30, 2022, received this payment during fiscal year 2023.
- The Classified and MSEA contracts added an early retirement incentive payment of \$500 for employees who retire after the first semester and \$1,000 for employees who retire at the end of the 2022–2023 school year, both payable to a VEBA, upon attaining age 55 with 20 years of service. The increase in liability associated with this plan change also includes a corresponding increase in the implicit rate medical subsidy.

2023 CHANGES IN ACTUARIAL ASSUMPTIONS

- The healthcare trend rates were changed to better anticipate short-term and long-term medical increases.
- The mortality table was updated from the Pub-2010 Public Retirement Plans Headcount-Weighted Mortality Tables (General, Teachers) with MP-2019 Generational Improvement Scale to the Pub-2010 Public Retirement Plans Headcount-Weighted Mortality Tables (General, Teachers) with MP-2021 Generational Improvement Scale.
- The salary increase rates for nonteachers were updated to reflect the latest experience study.
- The withdrawal rates were updated to reflect the latest experience study.
- The expected long-term investment return was changed from 5.90 percent to 6.30 percent.
- The discount rate was changed from 5.90 percent to 6.30 percent.

2022 CHANGES IN PLAN PROVISIONS

- Thirty-six teachers, who retired at the end of the 2021–2022 school year after attaining age 55 with 15 years of service, each received an early retirement incentive of \$50,000 (prorated if less than 1.0 FTE), which was paid to a VEBA on June 30, 2022. The increase in the liability associated with this plan change also includes a corresponding increase in the implicit rate medical subsidy.

2022 CHANGES IN ACTUARIAL ASSUMPTIONS

- The expected long-term investment return was changed from 5.30 percent to 5.90 percent.
- The discount rate was changed from 5.30 percent to 5.90 percent.
