

Fentanyl Poisoning Awareness Month

LVISD and SHAC's mission:

To address: Fentanyl curriculum and awareness: prevention, dangers of fentanyl/opioids, recognition of OD, response (narcane), and addiction/abuse.

I have pulled together these suggested courses and videos, we just need to decide if this all works well together, is easily followed by teachers to present, and if it is easily understood by the students. We can have the teachers present these once a week during the month of October.

I'd like to suggest Operation Prevention as the baseline, impact videos from reputable sources; such as: Songs for Charlie, Dead on Arrival, and more (to keep the message loud and clear, not redundant to the students, they would only get a few videos not all at once).
