

## Babb April Board Report

As we continue to venture through this unprecedented time I am grateful to everyone in our district that has stepped up to provide for our students in anyway.

At Babb school, we continue to provide our students with Work Packets. Both certified teachers are available by phone for questions from students. Information is posted on our School Facebook page concerning pick up/drop of time, changes, etc. A check-in letter is also sent home for all students. We also post different activities that they can do at home.

I am very delighted that we have had 83% of the packets returned on the cut off date. Packets are still making it in late though. All staff are meeting virtually/or on school site once a week on Mondays from 9:00 a.m.-10:00 a.m. Our teachers and TA's are coming in weekly to get things ready for our students. Samantha is working at getting a lot of the food out of the pantry before summer break.

We are also planning our 6<sup>th</sup> grade graduation. We will have 3 graduates this year, Jack Billedeaux, Kendall Loring and Zahlin Vielle.
