"Be Excellent"

PBIS

BE RESPECTFUL

BE RESPONSIBLE

BE SAFE

BE EXCELLENT

JUNE 2022 SCHOOL BOARD REPORT

Kindergarten Circus

We hosted the 54th Annual Kindergarten Circus at the end of May. The young performers did an amazing job with all of their acts and we were able to bring back our balloon and popcorn vendors which is always a crowd favorite.

Bike Rodeo

At the end of the May, we hosted our 3rd Annual Bike Rodeo. With the help of our Frederic Police Department, representatives from the Friends of the Gandy Dancer group, and the generous monetary donations from WINGS, we were able to educate our students on how to be safe on their bikes this summer. Students learned about the rules of the road, and safe bike trails. Thanks to WINGS, everyone who signed up for a helmet, was fitted with a proper helmet for free.

Track and Field Day

Due to weather, we had to postpone our track and field events until the last week of school. Luckily, the day we changed it to was a beautiful day for our young athletes. We had many personal records broken that day and even had some school records broken in some of the field events. This year, we had a master of ceremonies table which was able to help things run more smoothly with the timed events and hand out ribbons and certificates.

End of the Year Celebrations

On our last day, we were able to honor our 5th grade students with a graduation ceremony. With collaboration from families, we were able to put together a slide show featuring with pictures of each student as a young child and a 5th grader. We also compiled pictures of the students throughout the years at the elementary school. In conjunction with graduation, we also held our awards ceremony. Many students were honored for growth in Math and for overall minutes read during the school year in addition to our student of the week recipients and our perfect attendance awards.

Summer Saunters

Our young explorers hiked for 5 straight days on the Ice Age Trail. The Saunters had perfect weather each day but did need to add in a little bit of bug spray protection on certain segments. All together they hiked over 13 miles during the week. On the last day, members from the Ice Age Trail Alliance had a luncheon for all the students and the students presented skits to families and friends on what it means to be a Saunter, getting to capture some fun moments from that weeks events.
