Good morning Ken and thank you for your time and this opportunity! I have confirmed that by August 1, the recycle routes will be ready to go for your locations. For these accounts I would waive the fuel surcharges we typically have, lock the pricing for 1 year and be able to provide 9% increase caps for the remaining years whether you choose a 3 or 5 year agreement. All of these are monthly charges. There would be a 1 time fee of \$100 but that will cover the delivery of all containers at all sites. We can also provide roll off dumpsters for clean outs, and closed asbestos boxes if you are ever in need of those! I hope to work with you soon. Enjoy your day.
