

Site Report – Chignik Bay - February, 2022

To: Superintendent Kasie Luke
and LPSD School Board Members

From: Stephanie Canning, Headteacher

Outstanding Activities and Events

Where do I even begin? Well for starters the student government put on a successful Valentine's Day dinner that was amazing! Our student government spirit wear sale has really taken off and we hope this will help us to be able to update our movie equipment. In early January, myself alongside Jim, applied for a Cultural Grant through Bristol Bay Native Corporation Education Foundation and we received the grant! We are so excited to start building our smokehouse that will pair with our Gillnet we made last year. In addition to this grant, I have been working closely with a Trident representative to receive additional money for other projects such as the salmon in the classroom program, and I believe good news is headed our way! My secondary students are hard at work with their science fair projects and cannot wait till Snap Meet to share them with others.

Personnel

My one aide and sub are really the glue holding this school together. The students and I can't thank them enough for the support they give.

Standards Based System/Curriculum Progress

Secondary students have been working with one-on-one tutors from outschool and Itutor in order to help them progress proficiently through their standards. Elementary students have also been working one-on-one with Itutors to provide additional interventions.

Technology Progress

Weather has not been our friend this month in terms of connectivity. We have had daily periods of wifi outage due to weather and hope this will end soon. LPSD tech is working to solve Itutor issues.

Facility Update

The LPSD maintenance department is working with the local maintenance to help get supplies out to rebuild the entryway for teacher housing. They are also arranging to make a site visit to work on our boilers, weather permitting.

LSAC Activity

LSAC will have their next meeting on March 11th, where the school calendar, district activities, and EOLs will be discussed.

Volunteer Report

Just the same as other sites, we were just made aware that a second paid hour of night gym could be coming but until then we will continue to have an additional hour that is run by a volunteer. I would like to thank the Chignik Bay Tribal Council for working with me to help acquire materials for our culture week that will take place in April.

Professional Development

My SPED Aide has finished his training for special education as well as participating in the literacy classes that Amber made available earlier this year. He also hopes to take the Praxis soon. My only sub has also chosen to participate in the literacy classes. While I still am enrolled in both my grad classes for my Masters, as well as my EDL certification class, I have also started professional development on reading. I am participating in a great course offered by DEED and cannot wait to work with a coach to help implement the things I am learning to better help the students of LPSD.

Pupil Attendance

Students are attending school daily with no absences.

Student and Staff Safety

n/a

Subsistence Calendar

Our LSAC will be working to prepare our 2022-2023 school site calendar at our next LSAC meeting.

Other

As we start our work for the new library, we have come across areas of the school that have been forgotten and really need a pick-me-up. We hope to be able to help give these spots a pick-me-up by removing large trash items with the school truck when it arrives.
