Recommendation Factors			
	CampusEAI	**Dublabs**	**Ellucian**
	1) No Blackboard functionality built into the app for students, staff, and faculty.	1) Broad and integrated access of Blackboard and Banner data for students, staff, and faculty with no additional cost to the users.	Unreasonable cost.
	2) Required access to Banner Database.	2) Ability to easily add and modify icons without updates to the app in the app stores.	
	3) Additional Cost for additional features.	3) Provides a solution that addresses all of the requirements of the RFP.	
	4) More difficult administrative interface.
