

Executive Summary

Prepared for Board of Trustees Meeting

August 24, 2010

Annual Health Services and Employee Wellness /SHAC Report

Board Goal: Required Report for Health Services/Employee Wellness/SHAC Report

Purpose of Report:

To provide information to the Board of Trustees regarding the activities of Health Services, Employee Wellness and the SHAC (School Health Advisory Committee)

Objectives

- Meet the state requirements for Board of Trustee Reports and SHAC recommendations
- Share with the Board the initiatives Health Services utilizes to impact student health and success
- Correlate the activities during the 2009-2010 school year with the Board Goals

Operational Impact

While no direct operational impact related to funding can be made, the nurses of Denton ISD make a positive impact on the students and staff every day.

Nurses working to keep those home who need to go home or stay home- decreased overall absenteeism

Nurses working to keep students who need to be in class at school- increased ADA

The impact nurses have on learning while not directly measurable – priceless

Results

The Board of Trustees will become more aware of the ways the professional nurses impact the overall health of the campus, parent security and satisfaction and impact student academic and personal success.

Other Options

SHAC members were approved last year and serve a two year term. One half of the members will rotate off next September.
