

Board Report:

For the 2018-19 school year we will be moving forward with the transition to Morrow Education Center becoming a separate school instead of a district sponsored program.

Advantages	Disadvantages:
<ul style="list-style-type: none">-Building anatomy-Online students will be tied directly to a building-better tracking students as they move between buildings-clear data on student numbers and progress-focus on 5th year completion-as the population grows we will continue to increase program opportunities-this does not impact current funding streams within the district	<ul style="list-style-type: none">-4 year graduation rate will be low (potential identification as a Targeted Support and Improvement school)

Process for becoming a separate school:

1. Board approval for the change (December)
2. Application to the state requesting the change (January)
3. Updating communications and district documentation (spring 2018)
4. Begin the 2018 school year as a k-12 school
