

**MCS D TAG Programs Report:**

Morrow County School District is committed to providing a quality education for all students. We recognize the wide variations that exist among the gifted and strive to meet their needs. Our goal is to ensure that the gifted learner is stimulated and challenged throughout the school day by means of advanced content, flexible pacing, higher order thinking skills, research, projects, and/or materials appropriate for the student’s learning.

Gender	City	Economic Disadvantage

**GOALS for TAG Students**

The District’s goals for students identified as TAG are:

- To increase the number of gifted students who participate in Honors and Dual Credit classes offered by MCS D.
- To increase the number of gifted students who participate in school enrichment programs, extra-curricular activities and events.
- To increase the number of students who exceed expectations on the SBAC assessment at all levels.
