Summer Academy – Professional Development Opportunities

Our Hillsboro High School teachers and staff participated in HISD’s annual Summer Academy Professional Development. Our teachers were able to collaborate with other HISD educators and special presenters during this week of learning in July. HHS teachers also participated and presented at various conference and workshops during the Summer to sharpen their educational skills. We look forward to observing our teachers and staff as they take these great learning experiences into the classrooms to have a positive impact on our students learning.

Hillsboro High School Theme 2018 – 2019

The theme for Hillsboro High School during the 2018 – 2019 is “Make An Impact”. This theme is to be carried out from all those involved in the educational process:

Administrator interactions with students and teachers

Teacher interactions with students and fellow teachers

Student interactions with their fellow students.

The goal for all those involved in the educational process is to “Make An Impact” in a variety of actions – guidance, support, inspiration, collaboration, positive role modeling, and motivate to name just a few. Our goal is to build impactful learning experiences and build positive educational relationships with all administrators, teachers, and students at Hillsboro High School.
