**Board of Education**

**Date:** June 23rd, 2025

---

**Agenda Item # 9. E.**

---

**TOPIC:** Safe Routes to Schools Resolution (SRTS)

**BACKGROUND:** The SRTS grant application was approved by the State. We met with the County planner and engineering staff regarding the approved SRTS funding to review conceptual information for the project.

The proposal is to construct 430 linear feet of walkway on the east side of the signaled secondary entrance. The grant covers the construction costs, but does not cover soft costs like engineering and administrative costs. The soft costs are estimated by the County to be approximately \$50,000. This cost is included in our Preliminary 2025-2026 Budget. The County's conceptual budget has \$150,000 of construction costs which are covered by the State grant.

The County requested the District provide confirmation that we are willing to proceed and work with the County and a Board resolution is acceptable for that purpose.

Timelines are tight as the funds expire between June 30, 2027 and December 31st, 2027.

**ACTION RECOMMENDED:** Approval
