

Site Report – Perryville – Dec./Jan 24-25

To: Superintendent Kasie Luke
and LPSD School Board Members

From: Ken Barbour, Head Teacher

Photos & Description of Activities and Events

Mr. Lancaster being silly with the littles. They find him funny and often giggle at his jokes. Every morning there is a morning meeting and students and staff debrief about the comings and goings of the day. The pledge and moment of silence is observed every morning.

Audrey has volunteered extra hours at the school to help high schoolers prepare their capstone project. She even brings her own beads and expertise. The students love learning these traditions.

Personnel Update

Teachers are working hard to provide students with everything that they need for them to meet expectations and the standards. Mark Kosbruk is doing a fantastic job cooking lunches for the students.

Angelina Phillips is our new night gym sub. She also has become a member of LSAC and is showing the desire for leading and partnering in the community and with the school.

Classroom Highlights

Preschoolers learned the letters k, l, m. We are still continuing Alutiiq language and culture everyday. This month we did Hibernating culture bucket. The students enjoyed making their own "cave" to hibernate in. We also are learning about different animals. Why some have fur, why some do not, and why fish have scales and others do not. They are excelling in Ignite app which is a learning app as well as letter quiz app. We hosted a Valentine's craft last Friday.

The Elementary students finished the first semester with a battery of assessments to determine progress. The areas assessed were math, reading and language usage, and all students showed growth. We are continuing to work hard in math, reading, and writing to get levels up, up, up, in order to build a good foundation for future learning. We are gearing up for Valentine's day. The elementary will have a small party in the afternoon with an exchange of Valentine's. We are planning a school wide spirit week before the district basketball games. A note will go home and we will encourage participation in this fun event. Finally, we have a 4th grade team that plans on participating in Battle of the Boos.

The Middle School and High School students are working hard towards completion of the required standards in Social Studies, Cultural Awareness, and ELA for this year. We had three students attend the basketball camp at Newhalen. All three worked hard and had a good time. Practice continues in preparation for the basketball tournament in Chignik Lake. We will have five students going.

Students continue to make satisfactory progress through their standards in math and science. The same is true for Technology and Employability standards.

LSAC Activity

We had a LSAC meeting on January 29th. Due to busy schedules we were unable to meet in December but January was a success. LSAC discussed graduation for Kinder, 8th grade, and Seniors. We have this lined up and will talk in more detail during our Feb. LSAC.

Community Engagement

The Student Government is planning a Valentine's Day Spaghetti Dinner on Friday the 14th. The community is invited to attend. In December the students put on the Christmas play "Techno or No Techno" for their

parents and relatives. The students did a wonderful job with the acting and singing of the songs. "Walking Taco's" was a success and the Christmas Bazaar brought in community and member support.

Professional Development

Teachers attended the required inservice in January. Teachers met online on January 24th and 27th. Ken Barbour attended the Saturday January 18th inservice as well. Teachers used the time to catch up on some much needed work and the overall expression was it was good to get some time to focus on tasks that may otherwise have to be done after school hours, and placed based learning lessons are being utilized and created.

Pupil % Attendance K-12

Perryville had a 76% attendance for both December and January. Letters have been sent home about student attendance. We are hoping that this will improve as the sun shifts and our planning a competition between the school sites. More info to come on that.

Student and Staff Safety

Students and staff completed the mandatory fire drills in December and January. January's drill was completed in two minutes.
