Re: PTO gift, proposed technology order for Whittier School

At the final PTO meeting of this school year, the Whittier PTO generously set aside \$10,000 to go toward technology purchases for Whittier School. Led by the Tech. Integrationist and our Teacher Librarian, certified staff completed a survey of technology needs, and the results were then compared against the D97 technology plan. Working in collaboration with Therese O'Neill to set aside \$11,000 in Whittier building funds and Julie Mullen to secure pricing and updates involving SMART technology, the following technology plan was built.

Item	Quantity	Price	Total
Screens	12	92	1,100
Elmos	19	563	10,697
LCD proj.	2	1,595	3,190
SMART bd.	1	5,600	5,600
			20,587

At this time, I would ask that the PTO donation of \$10,000 to Whittier School be included in the June 26 board book for their review. Pending board approval at the July 17 meeting, I hope to place this order in July so that we can be in receipt of these items for the start of the new school year. Please let me know if other information is required for the board book.
