

## Action Item

**Date:** January 13, 2025

**Division:** Superintendent

**Subject:** FDB Local Resolution

### Background Information:

- The Board took action on December to approve school retirements and boundary adjustments.
- Current FDB Local allows students who live in areas where boundaries are adjusted to be “grandfathered” to stay at current campus if they are rising 5th or 8th graders along with their siblings. Students who choose to stay at their current campus must provide their own transportation.

### Administrative Consideration:

- This resolution would propose that with these recently approved boundary adjustments specifically identified in the resolution students who are currently in Grades K-4 and Grades 6-7 would be able to be “grandfathered” to remain at their current campus.
- The resolution would address incoming Kinder students who are siblings of a student being grandfathered. Incoming 6th grade students who are siblings of a student being grandfathered would need to apply for a transfer in alignment with past practice for FDB Local.
- Students would still need to provide their own transportation.

### Recommendations:

- Approve FDB Local Resolution

### Timeline/Report:

- This will be implemented for the 2025-26 school year
